## Acknowledgments

Defense Manpower Data Center (DMDC) is indebted to numerous people for their assistance with the *2013 Workplace and Equal Opportunity Survey of Active Duty Members*, which was conducted on behalf of the Office of the Under Secretary of Defense for Personnel and Readiness (USD[P&R]). The survey program is conducted under the leadership of Kristin Williams, Director, *Defense Research, Surveys, and Statistics Center* (RSSC).

Policy officials contributing to the development of this survey include James Love (Office of Diversity Management and Equal Opportunity).

DMDC's Survey Design, Analysis, & Operations Branch, under the guidance of Elizabeth P. Van Winkle, Deputy Branch Chief, is responsible for the development of questionnaires in the survey program. The lead survey design analyst was Natalie Namrow, SRA International, Inc. Survey operations, under the guidance of Carol Newell, Team Lead, are responsible for the survey database construction and archiving. The lead operations analyst on this survey was Lisa Davis. Data Recognition Corporation (DRC) performed data collection and editing.

DMDC's Statistical Design Branch, under the guidance of David McGrath, Branch Chief, is responsible for developing the sampling and weighting methods used in the survey program. The lead sampling analyst on this survey was Phil Masui, supported by Eric Falk, who used the DMDC Sampling Tool to plan the sample and develop weights for this survey. Carole Massey and Sue Reinhold provided programming support for the sampling and weighting tasks.

# 2013 WORKPLACE AND EQUAL OPPORTUNITY SURVEY OF ACTIVE DUTY MEMBERS: ADMINISTRATION, DATASETS, AND CODEBOOK

## Introduction

The *Defense Research, Surveys, and Statistics Center* (RSSC), Defense Manpower Data Center (DMDC), conducts surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness (USD[P&R]). These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community on a wide range of personnel issues. *Human Relations Surveys* are in-depth studies of topics and populations, often requiring both paper-and-pen surveys and Web-based surveys.

The *2013 Workplace and Equal Opportunity Survey of Active Duty Members* (2013 WEOA) was designed to assess the attitudes and opinions of active duty members on a wide-range of quality of life issues. Data were collected by Web between April 12 and July 22, 2013.<sup>1</sup> The sample consisted of 88,816 active duty members. A total of 18,018 eligible members returned usable surveys, which represent an adjusted weighted response rate of 23%.

## Overview of Report

The next section of this report describes the procedures used to develop the instrument, design the sample, conduct the survey, process the data, and prepare analysis weights. DMDC (2013a) and Riemer and Kroeger (2002) provide details on sampling and weighting.

Following the summary of the survey methodology is a description of the survey analysis file layout and key variables. Appendices C-K address key concepts required for the analysis of complex survey data and the structure of records in the survey analysis files are introduced in this section. The appendices in this report include:

- A – Survey instrument.
- B – Samples of all possible communications sent to sample members during the survey administration: letters, e-mails, and Marines OnLine (MOL) postings.
- Conventions for variable naming and construction are provided in C (annotated questionnaire) and D (coding scheme).
- E, F, and G list the names and values of all variables in the basic survey file and the confidential variables.
  - E lists the variables in alphabetic order and flags the confidential variables with an asterisk (\*).

---

<sup>1</sup> The Web survey instrument allows us to have a soft opening and closing for the survey. The survey instrument was open and available to take survey responses between April 12 and July 22, 2013. The e-mail notifications and reminders stated that the field opened on April 15 and closed on July 17, 2013.

- F lists the variables in the order that they appear in the dataset. Variables with the same function are grouped together, (i.e., all variables used for weighting are located together).
- G provides a frequency for each variable with the SAS<sup>2</sup> values, OS flat file<sup>3</sup> values, and SAS labels in the order that the variables appear in the dataset. In addition to the variables available on the basic survey file, H contains details for the confidential variables that had to be suppressed to preserve the privacy of survey respondents and nonrespondents.
- H provides the record layout for the basic survey flat file.
- The SAS code used to construct the analytic variables are included in I.
- Examples of analyses are provided in J.
- K lists all questionnaire items and identifies where they have been used in previous DMDC surveys.

## **Method**

### ***Survey Instrument***

The *2013 WEOA* fulfills the Congressional mandate outlined in Title 10 U.S. Code Section 481 for Joint Service quadrennial assessments of race/ethnic issues. The *2013 WEOA* is the third DMDC active duty survey of racial/ethnic issues and was modeled on previous DMDC surveys of Reserve component and active duty members, the *2009 Workplace and Equal Opportunity Survey of Active Duty Members (2009 WEOA)* and the *2011 Workplace and Equal Opportunity Survey of Reserve Component Members (2011 WEOR)*. These surveys were designed to estimate the level and consequences of racial/ethnic harassment and discrimination. The *2013 WEOA* was subdivided into the following eleven topic areas:

1. *Background Information*—Active duty status, gender, and race/ethnicity.
2. *Satisfaction and Retention Intention*—Years of service, retention intention, and overall satisfaction with military life.
3. *Tempo*—Deployed within the past 12 months and deployments to a combat zone.
4. *Military Workplace*—Satisfaction with supervisor, work, and coworkers; mentoring, organization performance; readiness; morale; unit cohesion; and workplace hostility.
5. *Stress, Health, and Well-Being*—General health, perceived stress, and depression experiences.

---

<sup>2</sup> SAS® is a registered trademark of SAS Institute Inc., Cary, NC, USA.

<sup>3</sup> The OS flat file is a text version of the dataset. The variables are in the columns and the records are in the rows. This data can be loaded into any statistical software package.

6. *Workplace Experiences*—Types and frequency of personal experiences within the military community related to race/ethnicity; DoD's/Service's responsibility to prevent racial/ethnic harassment and/or discrimination; details pertaining to the most bothersome race/ethnicity-related situation experienced during the 12 months prior to taking the survey including type(s) of incident(s) experienced, where and when it occurred, characteristics of offenders, reactions to the situation, to whom behaviors were reported, reasons for reporting, satisfaction with the reporting process and outcome experience, retaliation for reporting, and reasons for not reporting.
7. *Personnel Policy and Practices*—Views on current racial/ethnic policies and leadership practices and perceptions of race relations within the military.
8. *Training*—Military training received in the past 12 months and perceived effectiveness of training on prevention of racial/ethnic harassment and discrimination.
9. *Social Perceptions*—Personal experiences of racial/ethnic confrontation and exposure to racist/gang messages and organizations.
10. *Military/Civilian Comparisons*—Perceptions of opportunities/conditions in the military compared to civilian employment, and historical comparisons between military and civilian prevalences of racial/ethnic harassment and discrimination.
11. *Further Background Information*—Religion/religious preference.

### ***Sample***

The target population for the 2013 WEOA consists of active duty members in the Army, Navy, Marine Corps, Air Force, or Coast Guard, who were drawn from the *September 2012 Active Duty Master Edit File (ADMF)*, and are below flag rank. The sample consisted of 88,816 individuals; 18,018 ultimately provided usable survey responses.

### ***Constructing the Frame and Drawing the Sample***

DMDC's *September 2012 Active Duty Master Edit File (ADMF)* was used in developing the sampling frame, constructing strata, and determining the sample size and allocation. Final eligibility for the sample was based on membership in the *November 2012 Defense Enrollment Eligibility Reporting System (DEERS) Point in Time Extract (PITE)*. The specified definition of the population, described above, resulted in a sampling frame with 1,407,767 eligible members. A non-proportional stratified, single stage random sample of 88,816 members was selected.

### ***Stratification Variables***

The frame was stratified (divided into mutually exclusive population groups) for sampling using the three variables listed in Table 1.

**Table 1.**  
***Member Stratification Variables***

<b>Dimension of Stratification</b>	<b>Levels</b>
Race/Ethnicity	Hispanic White/Unknown Black American Indian/Alaskan Native Asian Hawaiian/Pacific Islander Multi Race
Service	Army Navy Marine Corps Air Force Coast Guard
Pay Grade	E1-E4 E5-E9 W1-W5 O1-O3 O4-O6

Researchers identified population subgroups of particular interest to policy officials. These reporting domains were defined using the demographic variables shown in Table 2. Multiple versions of most of these variables were created to permit varying levels of detail for analysis and reporting.

**Table 2.**  
***Factors Defining Key Reporting Domains***

<b>Variable</b>	<b>Categories</b>	<b>Variable</b>	<b>Categories</b>
<b>Service*</b>	Army Navy Marine Corps Air Force Coast Guard	<b>Race/ Ethnicity*</b>	Hispanic White/Unknown Black American Indian/Alaskan Native Asian Hawaiian/Pacific Islander Multi Race
<b>Gender</b>	Male Female	<b>Pay Grade*</b>	E1-E4 E5-E9 W1-W5 O1-O3 O4-O6
<b>Deployment</b>	Deployed in the past 12 months Not deployed in the past 12 months		

\*Stratification variables (see Table 1).

The sample size and allocation were determined using the DMDC Sample Planning Tool (Dever & Mason, 2003). The Tool uses a formal mathematical procedure (Chromy, 1987) to determine the minimum cost (i.e., minimum size) allocation that meets precision requirements (e.g.,  $\pm 5$  percentage points) imposed on prevalence estimates for key reporting domains.

Within each stratum, the sample was selected with equal probability and without replacement. Sampling rates varied across the strata, so individuals were not selected with equal probability overall. Table 3 presents a summary of the sample allocation for the total population and race/ethnicity and pay grade by service.

**Table 3.**  
***Sample Allocation for the 2013 Workplace and Equal Opportunity Survey of Active Duty Members***

Sample	Total	Army	Navy	Marine Corps	Air Force	Coast Guard
<i>Total</i>	88,816	29,581	25,448	16,793	12,212	4,782
<i>Race/Ethnicity</i>						
Hispanic	14,825	5,653	3,940	3,044	1,171	1,017
White/Unknown	12,718	3,994	1,767	3,540	2,090	1,327
Black	16,151	7,023	2,,813	3,182	2,139	994
American Indian/Alaskan Native	14,595	3,444	7,878	1,584	1,171	518
Asian	11,421	4,309	2,654	2,888	1,449	121
Hawaiian/Pacific Islander	12,807	5,158	2,586	1,755	3,048	260
Multi Race	6,299	0	3,810	800	1,144	545
<i>Pay Grade</i>						
E1-E4	50,029	16,773	15,381	10,941	5,058	1,876
E5-E9	28,606	9,542	8,027	3,938	5,161	1,938
W1-W5	1,016	565	81	169	0	201
O1-O3	6,131	1,826	1,286	1,288	1,268	463
O4-O6	3,034	875	673	457	725	304

## ***Respondents***

### ***Sample Losses***

The original sample file contained 88,816 records. A summary of losses to the drawn sample are listed in Table 4. Sample members were lost for three main reasons: (1) self- or proxy-reported ineligibility, (2) nonlocatability, and (3) refusal to participate in the survey, or other nonresponse.

**Table 4.**  
***Final Sample Relative to Drawn Sample***

	Sample counts		Weighted estimates of population	
	n	%	n	%
<i>Drawn sample</i>	88,816		1,407,767	
Ineligible on master files	-1,043	1.17%	-17,169	1.22%
Self-reported ineligible	-250	0.28%	-5,033	0.36%
Total: Ineligible	-1,293	1.46%	-22,202	1.58%
<i>Eligible sample</i>	87,523	98.54%	1,385,565	98.42%
Not located (estimated ineligible)	-150	0.17%	-2,296	0.16%
Not located (estimated eligible)	-12,962	14.59%	-170,066	12.08%
Total not located	-13,112	14.76%	-172,362	12.24%
<i>Located sample</i>	74,411	83.78%	1,213,203	86.18%
Requested removal from survey mailings	-369	0.42%	-6,848	0.49%
Returned blank	-914	1.03%	-13,471	0.96%
Skipped key questions	-2,295	2.58%	-33,398	2.37%
Did not return a survey (estimated ineligible)	-604	0.68%	-11,193	0.80%
Did not return a survey (estimated eligible)	-52,211	58.79%	-829,191	58.90%
Total: Nonresponse	-56,393	63.49%	-894,101	63.51%
<i>Usable responses</i>	18,018	20.29%	319,102	22.67%

Elimination of ineligible decreased the sample to 99% (87,523) of its original size. Losses attributable to either ineligibility or unlocatability resulted in a sample that was 84% of the drawn sample. Respondents included all sample members who completed 50% of applicable questions<sup>4</sup> and the critical questions, Q28 and Q31. At the conclusion of the survey fielding, 18,018 eligible, locatable sample members had returned usable surveys.

### ***Location, Response and Completion Rates***

Beginning in 1995, DMDC standardized its methods for calculating response rates and completion rates using procedures patterned after those advocated by the Council of American Survey Research Organizations (CASRO). CASRO noted that varying operational definitions of response rates can lead to problems or confusion (e.g., when awarding contracts requiring pre-specified response rates or when interpreting the results of a survey). As a result, CASRO formed a task force to recommend guidelines for standardizing the operational definitions of response rates. The new DMDC procedures closely follow CASRO's Sample Type II design (see Council of American Survey Research Organizations, 1982). This definition corresponds to

<sup>4</sup> Applicable questions are those to be completed by all respondents and excluded items that could be skipped over depending on prior answers.

the American Association for Public Opinion Research (AAPOR) RR3 (AAPOR, 2008), which estimates the proportion of eligible cases of unknown eligibility.

Table 5 provides location, response, and completion rate information. The location rate is defined as the proportion of eligible sample members that were locatable. The response rate is defined as the proportion of eligible sample members that returned usable surveys, while the completion rate is defined as the proportion of the located sample that returned usable surveys.

**Table 5.**  
***Location Rates, Response Rates, and Completion Rates for Eligible Sample Members***

	<b>Observed Operational Rates</b>	<b>Weighted Operational Rates</b>
Location rate	85%	88%
Completion rate	24%	27%
Response rate	21%	23%

### ***Survey Development and Administration***

The survey was hosted on the operations contractor's secure Web site so that sample members could complete the survey online. Respondents entered the survey through a .mil site (<https://www.dmdc.osd.mil/dodsurvey>). The site stated the sources of the survey's certification and invited sample members to enter their personal ticket number and click "Continue." The sample members were then redirected to the operations contractor's secure Web site (<http://www.dodsurvey.net>). Sample members next saw a welcome page, which instructed them on the need to make a security pin and gave them access to the frequently asked questions (FAQs). After members created their pin, they saw the Privacy Act Statement and Informed Consent Information. If the members agreed to do the survey, they clicked "Continue" to begin the survey.

Each survey question was displayed on its own Web page. For each question, the survey allowed respondents to return to the previous page, move forward to the next page, clear their response(s), or save and exit the survey. If the respondent chose to save and return later, upon returning to the survey, the respondent was required to enter their ticket number and Personal Identification Number (PIN) and was brought back to the item from which they exited. Respondents answered questions by clicking on radio buttons, checking boxes, choosing from a drop-down list, or by text entry. The final page of the survey had a "Submit Information" button and a "Previous Page" button, both with full text explanations of their functions. In addition to the navigation features, the survey featured smart skips. Based on previous answers, the respondents would be shown questions for which they were applicable (see Appendix D for skip information).

## ***Survey Administration***

The survey administration process began on April 15, 2013, with the mailing of notification letters to sample members (minus original ineligibles). Up to three additional postal communications were mailed to sample members throughout the field period. In addition, sample members with a valid email address received an e-mail announcement and could have received up to nine e-mail reminders during the field period. Postal and e-mail mailings stopped once the sample member submitted their survey. The dates of the mailings are displayed in Table 6 later in this section.

## ***Survey Control System***

This section describes the process and system used to maintain and track all communications with sample members: the Survey Control System (SCS).<sup>5</sup> The relational database stored the original sample file, addresses, the history for all changes related to sample member eligibility and their addresses, and a file that tracks the sending of communications to each sample member (see Figure 1). The relational database structure allows sample members to have more than one address (a one-to-many relationship in the master table to address table). The 2013 WEOA maintained both postal and e-mail addresses in the system.

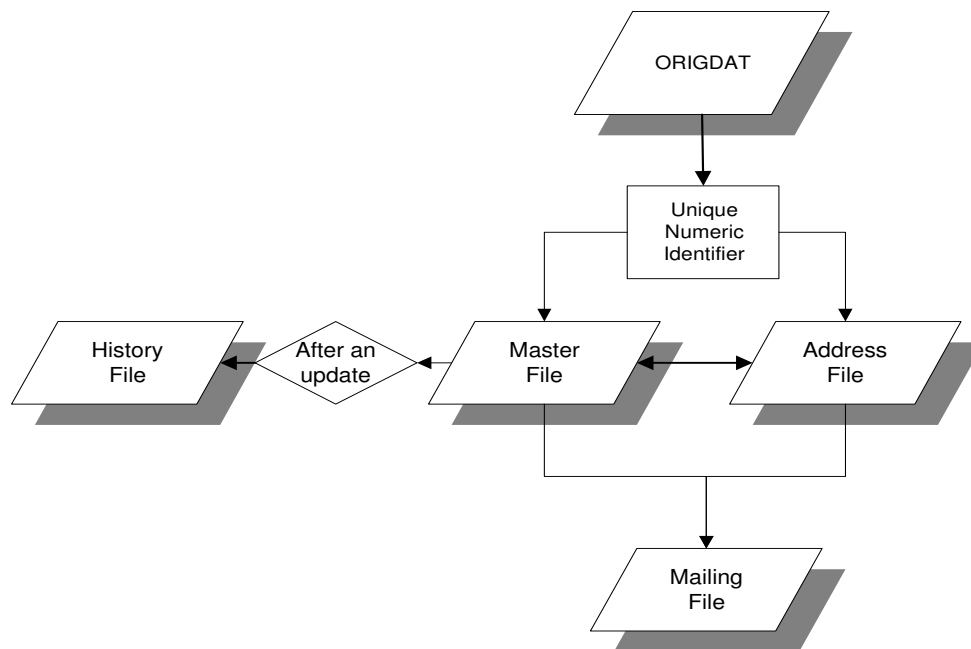

The SCS was used to monitor the data collection process and to track all data transactions over the course of the survey administration. The datasets in the SCS include sample members' names and addresses, but do not contain data obtained from the survey instruments. Because of privacy concerns, SCS datasets are not available for basic release.

The operations contractor uses the SCS to store and update project data, monitor mailings, respond to bounced e-mails and documents returned as postal non-deliverables (PNDs), and determine survey participation and eligibility status. The SCS consists of five datasets: the ORIGDAT file, the ADDRESS file, the MASTER file, the HISTORY file, and the MAILING file. The files are linked relationally by INRECNO, a unique individual identification number that is assigned to each sample member when the record was loaded into the SCS. Figure 1 displays the interrelationships among those datasets.

---

<sup>5</sup> In this document, the term *SCS* refers to the set of data files as well as the program or operating system which maintains those files.

**Figure 1.**  
*Survey Control System*

**ORIGDAT file.** The ORIGDAT file consists of 88,816 records, one record for each member of the sample. It is the original sampling SAS<sup>®</sup> dataset sent to the operations contractor by DMDC. The original file is loaded onto the operations contractor's computer system and while doing so, the SCS generated a unique identification number (INRECNO) for each record. This number identifies the sample member throughout the SCS and in returns datasets, comment text files and other specify text files. The names and some demographic data from the ORIGDAT file were loaded into the MASTER file in preparation for the first mailing. The addresses from the ORIGDAT file were loaded into the ADDRESS file.

**ADDRESS file.** The ADDRESS tracked the postal and e-mail addresses that were maintained for each sample member. The ADDRESS file contains one record for each postal address for each sample member (e.g., if there were five addresses located for one sample member during the survey administration, that sample member has five separate records in the ADDRESS file) yielding an ADDRESS file containing 386,846 records. Each record is uniquely identified by the combination of INRECNO (identifying the sample member) and an address number (ADDRNO) assigned to each address. This address number is the sequential order of receipt of the address for a particular sample member. For example, if a sample member has one address record in the ADDRESS file, the address number for that record is one. If the sample member faxed in a change of postal or e-mail, the new address was added as address number two. The ADDRESS file was initially loaded with postal and e-mail addresses from the ORIGDAT file. Each record in the ADDRESS file includes the sample member's INRECNO,

WEOA1301ID, ADDRNO, address, the source of the address, address priority code (a variable indicating whether the record is the highest priority address for this sample member), and variables indicating whether the address successfully reached the sample member. All e-mail addresses have the same priority code and are used simultaneously for each communication. If an address bounces, it is flagged as invalid and placed in the HISTORY file (see the section below for more details on the HISTORY file).

The priority code assigned to a given address number for a sample member was used to determine the “best” or “highest priority” address for the sample member at any given time. It was originally determined by the source of the address. Address updates obtained directly from a sample member received a priority number of one. The order of priority of address sources from “highest priority” to “lowest priority” is as follows, respectively:

1. Updates directly from a sample member (call, fax, e-mail, Web update or letter)
2. Address corrections from the U.S. postal service (ACS [electronic address change service], ACRs [address correction requests], and ODFs [out-of-date-forwarded mail])
3. NCOA-updated addresses
4. DEERS residential addresses
5. DEERS unit addresses

Unlike postal addresses, e-mail addresses have no priority and the operations contractor send reminders to all e-mail addresses on file. Once an address is found to be bad, it is placed in the HISTORY file. The 2013 WEOA had four sources of e-mails:

- Updates from the sample member
- DEERS files
- DTS files
- Purchased e-mails from an outside vendor

**MASTER file.** The MASTER file is used by the SCS to select records for upcoming survey mailings. This file includes a record for each member of the sample and was initially created by extracting data from each record in the ORIGDAT file. Each MASTER record includes the sample member INRECNO, WEOA1301ID and the address number for the highest priority postal and e-mail address in the ADDRESS file for this sample member. The MASTER file accommodated data updates through an automated process (e.g., updating the address number in use after the receipt of a postal or e-mail nondeliverable or Web update) or manual key entry (e.g., updating information in response to a telephone call, fax, letter return or e-mail from a sample member). As new information was received for a particular record (including

changes to the highest priority address), the SCS updated the MASTER record (N=88,816) and wrote the old record to the HISTORY file. The MASTER file also contains a set of variables which summarize the sample member's participation in each of the mailings.

**HISTORY file.** The HISTORY file is a chronicle of the changes that occurred to the MASTER file. Each HISTORY record is a subset of an outdated MASTER record with the addition of a date and time stamp as the record is updated. That is, a HISTORY record is created when there is a name, address, paygrade, or eligibility status change in the MASTER file. Thus, the HISTORY file contains as many observations as there are updates to the MASTER file.

**MAILING file.** The MAILING file tracked all survey mailings (postal and e-mail). This file contains one record for an item postal mailed or e-mailed during the survey administration (N=1,098,047). Each MAILING record includes the INRECNO, address number used, date of mailing, mailing status, type of mailing, and the mailing identification code (MIC).

### ***Address Update Procedures***

#### ***Initial Address Updates***

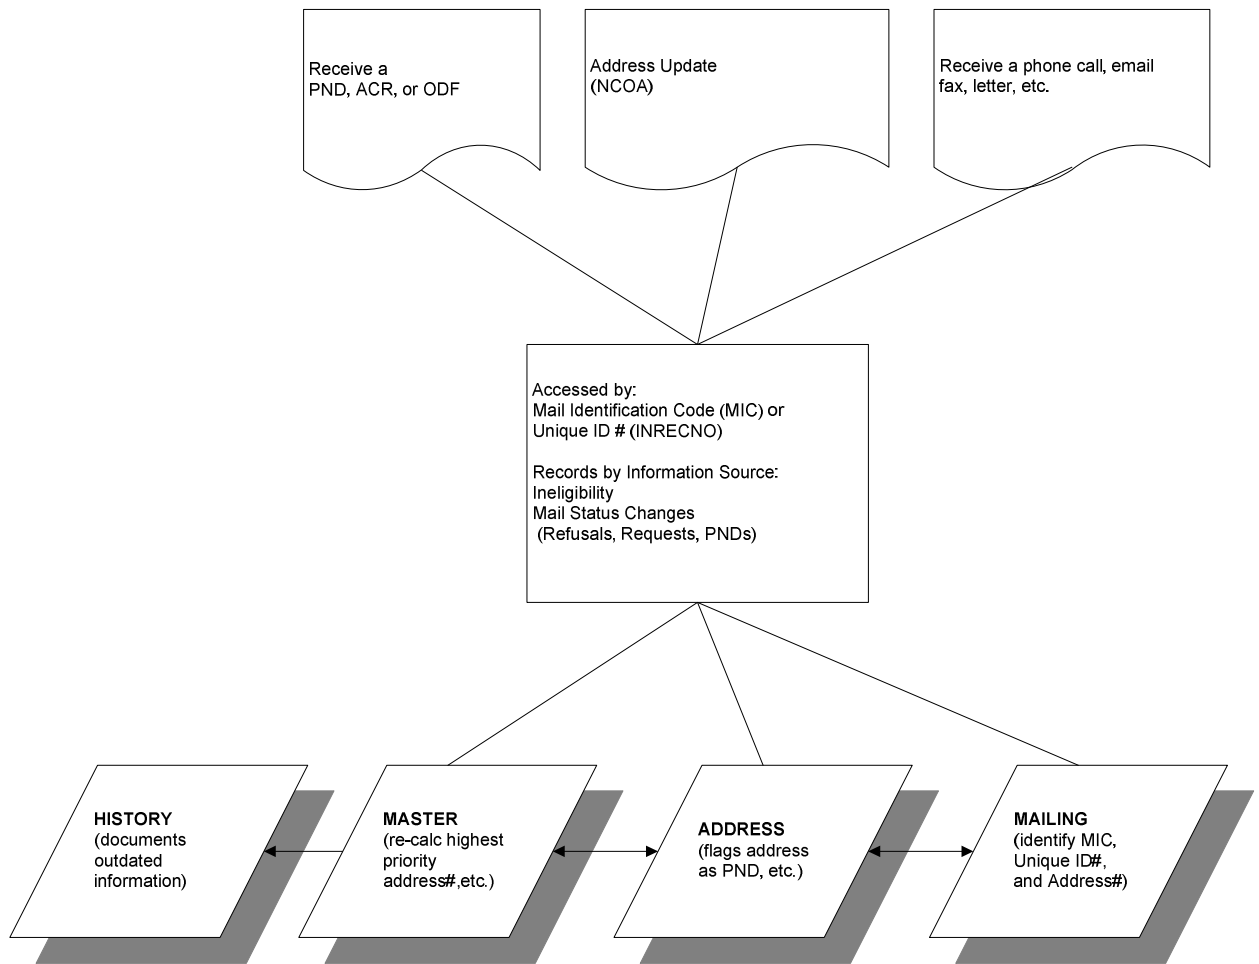

Prior to the first mailing, the operations contractor ensured all domestic residential addresses were formatted to conform to United States Postal Service (USPS) standards. Once the addresses were standardized they were passed through operations contractor-owned Satori software where they were checked against the NCOA database. The NCOA software updated the address records (in standardized format) based on change-of-address cards filed with the USPS. The updated NCOA address file was then integrated into the SCS. The NCOA-updated addresses were added to the ADDRESS file and became the current ADDRNO with the "highest priority code assigned" in the MASTER file.

After the NCOA-updated data was added to the SCS, another file was compiled of sample members who had an incomplete address or an address identified by NCOA as an undocumented move (i.e., the sample member had moved, but NCOA did not have a new address). The results were integrated into the SCS, updating records in the ADDRESS file.

#### ***Ongoing Address Updates***

Address update procedures also occurred when (a) additional address records were received after NCOA processing, (b) a survey document was returned as undeliverable, (c) a sample member self-reported a name, rank, or address change, or (d) the USPS forwarded address correction information. Figure 2 outlines these procedures.

**Figure 2.**  
***Address Updating Procedures***

As a new address was entered into the ADDRESS file, its source (NCOA, postal Address Correction Requested card, telephone call, fax, letter, Web, or e-mail) was recorded and a new address number was assigned. The priority assigned to the address was based upon the source of the update and the date and time of the address (see the description of priority, for the ADDRESS file). At any given time, the current address used corresponded to the address number with the highest priority code.

If all known addresses for a sample member were returned Postal Non-Deliverable Mail (PND), the sample member's record in the MASTER file was flagged "no address available." The operations contractor then designated the sample member "nonlocatable" and stopped further mailings.

## ***Processing of Updates***

### ***Updates from Sample Members***

Updates from sample members could be communicated via the toll-free telephone number (either by speaking to the operations contractor's Call Center staff or by leaving a voice mail message). In addition, sample members could mail, fax or e-mail updates or go to the survey Web site and enter updates. The updates made on the Web site were before the start of the survey. Other updates were entered into the SCS by the operations contractor's Call Center staff by the next morning.

### ***Updates from the U.S. Postal Service***

There are several types of address updates provided by the postal service. They are detailed below; each includes a description of the processing steps.

1. **Postal Non-Deliverable Mail (PND):** The sample member moved and no forwarding address was available. The mail piece was returned to the operations contractor. The operations contractor removed the letter from the envelope and scanned it to capture the Mailing Identification Code (MIC) in the lower right corner. A file of the MICs was loaded to the SCS so the records could be updated as PND. This was done as necessary to coincide with the mailing/re-mailing schedule. If sample member had another address on file (e.g., the unit address), that address was used for the next mailing.
2. **Address Correction Requests (ACR; hard-copy):** The outbound envelopes contained the endorsement "Address Service Requested." The post office provided the corrections via hard copy cards that were sent to the operations contractor. The manual corrections were entered into the SCS by the operations contractor's Call Center staff, typically by close of business the next day but no later than prior to the preparation of the next mailing. The USPS also provided electronic updates delivered via a secure Web site. These updates were programmatically entered into the SCS.

### ***KIA/Deceased List Process***

Throughout the survey mailing cycle, DMDC provided weekly lists of sample members who have been killed in action (KIA), are missing in action (MIA), or are deceased. These sample members' SCS records were updated up until survey field close with a disposition code that indicated no further mailings are to occur. This updating process occurred within 24 hours of receiving the KIA/deceased list. The current list was applied to the sample file before the selection process for every postal and e-mail distribution. In addition, for KIAs and MIAs, if a postal mailing was in process at the time the list is received, the operations contractor manually pulled the indicated mail piece out of the mail stream.

## ***Survey Materials and Their Distribution***

Each eligible sample member received at most four original mailings: an announcement letter and three reminder letters. Each mailing contained only a letter. In addition, e-mail was used to communicate with sample members. Not every sample member had an e-mail address. However, sample members with an e-mail address received at most ten e-mails: an announcement and nine reminders. Marine Corps sample members also received an announcement and reminder via Marines OnLine (MOL). Samples of the letter, e-mail and MOL communications are provided in Appendix B.

### ***General Mailing Procedures***

Prior to every mailing, the SCS searched the records in the MASTER file to identify which records should be excluded (e.g., sample members self-reported as ineligible for survey participation, sample members who had already returned survey forms, and members with no valid addresses available). For re-mails (sent between mailings), the SCS identified only those records that had been updated since the prior mailing. More specifically, the SCS identified records that had resulted in PNDs or had been manually flagged for re-mailing. If the mailing group was large enough to lead to a cost savings from sorting, the records were run through Group 1 postal software to sort the records according to first-class presort postal regulations. After this procedure, a unique Mail Identification Code (MIC) was assigned to each record. The MIC was assigned independently since only a letter was sent with each mailing.

### ***Ticket Numbers for Web Survey Access***

Prior to the first mailing, a list of ticket numbers<sup>6</sup> for Web survey access was randomly generated. One secure ticket number was assigned to each sample member and remained linked to that member for the duration of the project. That is, while a member's MIC or lithocode changed with each mailing as described previously, the member's ticket number did not change. The member's unique ticket number was printed (along with the survey URL) in each letter and e-mail sent to that individual. A member could not access the Web survey without using his or her ticket number.

### ***Description of Letters***

Letters were printed with the record's unique MIC listed in the address field and on the lower right corner of the letter. The letters were folded and machine inserted into window envelopes and sent by first class mail.

The status of each mailing was tracked throughout the data collection so that address-correction information could be incorporated into all relevant mailings. When a mail piece came back PND, the next mail piece was sent to a new address (if one could be obtained during the mailing period). For all mail pieces that came back PND, re-mails were completed if a newer/updated address could be found.

---

<sup>6</sup> Ticket numbers are eight alpha numeric characters generated at random.

DMDC provided the operations contractor with the text, letterhead and signature for the cover letters. The letters explained why the survey was being conducted, how the survey information would be used, and why participation was important. See Appendix B for copies of the letters. The letters were approved and printed on letterhead from the Office of the Under Secretary of Defense. The letters were signed by the Director of the Defense Manpower Data Center, Mary Snavelly-Dixon.

The letterhead and signature were printed in blue, and the text and recipient information of all letters were printed in black. In addition to including a name and address (which was also used as the mailing information for the window envelopes), each letter included a personalized salutation. The salutation addressed each sample member by his/her rank. For example, a letter to Navy E5 with the last name Smith would have included the salutation, “Dear Petty Officer Smith”. Similarly, an Army O3 names Jones would have received a letter starting, “Dear Captain Jones”. The address block also included service branch; for example, “Petty Officer John Smith USN” or “Captain Mary Jones USA”.

### ***Mailouts***

Table 6 lists the mailing dates and return results for each of the mailouts and re-mailings. For the notification mailing, a letter notified sample members that they were selected for this survey and encouraged their participation. The notification letter was mailed to 87,710 sample members on April 15, 2013.

The first reminder letter was sent to 75,583 sample members on May 16, 2013. The letter thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

The second reminder letter was sent to 68,733 sample members on June 10, 2013. The letter again thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

The third reminder letter was sent to sample members who hadn’t responded. The letter was mailed to 63,569 sample members on July 5, 2013.

**Table 6.**  
***Mailing Timeline and Return Results***

<b>Mailing Numbers and Groups</b>	<b>Number Sent</b>	<b>Number of PNDs</b>
Announcement	87,710	20,166
Announcement Re-mail 1	247	94
Announcement Re-mail 2	2,798	1,305
Announcement Re-mail 3	2,058	884
Announcement Re-mail 4	3,679	1,530

<b>Mailing Numbers and Groups</b>	<b>Number Sent</b>	<b>Number of PNDs</b>
<b>Subtotal: Announcement</b>	<b>96,492</b>	<b>23,979</b>
Reminder 1	75,583	12,726
Reminder 1 Re-mail 1	693	360
Reminder 1 Re-mail 2	272	131
Reminder 1 Re-mail 3	779	313
Reminder 1 Re-mail 4	688	269
<b>Subtotal: Reminder 1</b>	<b>78,015</b>	<b>13,799</b>
Reminder 2	68,733	7,388
Reminder 2 Re-mail 1	1,085	401
Reminder 2 Re-mail 2	223	64
Reminder 2 Re-mail 3	398	93
Reminder 2 Re-mail 4	1,803	351
<b>Subtotal: Reminder 2</b>	<b>72,242</b>	<b>8,297</b>
Reminder 3	63,569	1,951
Reminder 3 Re-mail 1	372	16
Reminder 3 Re-mail 2	547	4
<b>Subtotal: Reminder 3</b>	<b>64,488</b>	<b>1,971</b>

E-mail was also used to communicate with sample members. There were three sources for e-mails. First, each sample member had the opportunity to provide an e-mail address on the survey Web site during the survey. The second and third sources for e-mail addresses were the DEERS and DTS databases. Table 7 displays the percent of sample members for whom we had at least one valid e-mail by Service.

**Table 7.**  
*E-mail Address Availability by Service*

	<b>Army</b>	<b>Navy</b>	<b>Marine Corps</b>	<b>Air Force</b>	<b>Coast Guard</b>	<b>Total</b>
Valid address available	96%	95%	73%	96%	93%	91%

At the start of the survey, sample members with e-mail addresses received an announcement which informed them the survey was active and ready for completion. An additional seven e-mail reminders were sent throughout the survey field period. Table 8 lists the e-mail dates and e-mail addresses bounced. E-mail addresses “bounced” identifies sampled individuals that supplied an e-mail address but the address was invalid at the time the operations contractor attempted contact. This is analogous to a postal PND. E-mail address “sent” is not

the same as e-mail received. It is analogous to the non-PND return experienced during a mailed survey. It is not known if the mail was delivered to the intended individual, only that it was not returned.

**Table 8.**  
***E-mail Communication Timeline***

<b>E-mail Numbers</b>	<b>E-mail Drop Date</b>	<b>Number Sent</b>	<b>Number Bounced</b>
Announcement	04/15/13	92,131	2,607
Reminder 1	04/19/13	85,896	196
Reminder 2	04/25/13	82,184	8
Reminder 3	05/01/13	80,086	248
Reminder 4	05/07/13	78,420	114
Reminder 5	05/17/13	76,695	4
Reminder 6	06/11/13	74,669	6
Reminder 7	06/26/13	73,157	0
Reminder 8	07/09/13	72,274	4
Reminder 9	07/16/13	71,298	0

### ***Marines OnLine (MOL) Postings***

Marine Corps sample members have traditionally high non-locatable rates. According to the Defense Enrollment Eligibility Reporting System (DEERS), only 57% of Marine Corps E1-E4's have e-mail addresses. In addition, Marine Corps E1-E4's have a postal non-deliverable (PND) rate of 20%. To combat this issue, DMDC partnered with the Marine Corps to help increase respondent participation by using their portal, Marines OnLine (MOL) (<https://www.mol.usmc.mil>), to communicate the purpose of the survey and instructions for how to participate with sample members. MOL is a messaging portal that all Marine Corps members have access to and is also the primary tool used by the Marine Corps survey team to administer surveys across the Service.

DMDC provided MOL staff with the DoD Identifier and Ticket Number for each Marine Corps sample member, and communication text to be posted on the portal. MOL matched the DoD Identifier to their files and posted the survey communications with the unique Ticket Number to the sample members.

The announcement posting appeared on the sample members' MOL personal portal page on May 8, 2013 and the reminder posting on May 30, 2013. The posting on the personal portal page contained the first 400 characters of the postings with a "more..." link at the end to expand the entire message. The announcement and reminder were also e-mailed to sample members whom MOL had a valid e-mail address for (an approximately 75% match).

## ***Processing Returned Surveys***

Once a respondent completes an online survey, data are stored in an indexed file on the Web (data) server. Prior to providing each dataset to DMDC, the operations contractor copied the indexed file to their internal network using FTP protocol. The data are then converted to a sequential format, and the validate program reads and loads the data to the dataset.

### ***DMDC Coding Scheme***

To convert the raw data into the item scores that appear in the basic survey data file, DMDC provided the operations contractor an annotated copy of the survey form (see Appendix C) and the coding notes (see Appendix D). Every attempt is made to capture all information from completed surveys and preserve the data so that secondary analysts can later create variables that were not anticipated by DMDC researchers. To accomplish these goals, DMDC subscribes to a variety of coding conventions for all of its surveys. See Appendix D for in-depth coverage of these coding conventions.

DMDC uses “forward” coding when coding inconsistent answers in items with skip patterns. Data on the starting question accepted as marked and data for the items within the skip pattern are edited to be consistent with the starting question. However, an unedited version of each item is preserved in a full survey file. By preserving the unedited data, recoding can be done if ever required.

### ***Coding or Keying Open-Ended Items***

The Web survey contained 16 open-ended items. The original text responses from the 16 “other specify” response options were captured verbatim into a SAS<sup>®</sup> data set that is linked by the unique identification to the survey data. Text data in the SAS<sup>®</sup> files for open-ended items were spell-checked. Identifiers (e.g., proper names, addresses, e-mail addresses, phone numbers, locations, or social security numbers) were replaced with generic terms.

### ***Fifty-Record Check***

After receiving the first few days of returned records, the operations contractor performed a “50-record check.” This is a check to verify that the coding scheme and skip patterns are working. DMDC checked the resulting skip logic to determine if there were any unanticipated problems in the coding procedures (e.g., respondents were consistently answering in an unexpected manner). Minor corrections to these procedures were necessary as a result of this check and were reviewed by DMDC prior to production of the initial SAS<sup>®</sup> dataset. At the completion of the 50-record check, the operations contractor compiled the full set of returned surveys. The data were then cleaned and edited.

## Survey Analysis Files

This section (a) provides an overview of requirements for analysis of the data, (b) documents the structure of survey analysis files created for the 2013 WEOA survey, (c) describes the assembly of the analysis files, and (d) provides an overview of the variables in the survey analysis files.

### *Estimation*

Analysis of this data requires use of weights to compensate for the unequal selection probabilities and to account for differential nonresponse among population subgroups. The analytic weights were post-stratified to population totals so that weighted sample estimates would reflect population values.

In general, the procedures used to compute sample estimates of population parameters (including population totals, means, proportions), tests of hypotheses, regression relations, and their associated variances are derived from the probability structure that gives rise to the observations. As with other surveys involving complex probability structures, most of the parameter estimates of interest in this survey take the form of non-linear statistics. Examples include domain means and proportions where the denominator values are unknown and must be estimated from the sample data. The estimator takes the form of a ratio of random variables (i.e., the ratio of the estimated numerator and denominator totals or counts). In general, ratio estimates are not unbiased and their variances cannot be expressed in closed form. The variances are, therefore, approximated. The bias in a ratio estimate depends on the variance associated with the denominator total or count and can usually be ignored in samples having a large number of observations. As a working rule, the bias may be assumed negligible if the number of observations on which the estimate is based exceeds 30 or is otherwise large enough so that the coefficient of variation  $[SE(x)/x]$  of the denominator is less than .10 (cf., Cochran, 1977, pp. 153-165).

Two common variance estimation methods for complex sample data are linearization (Taylor series approximation) and replication. Wolter (2007) provides a detailed discussion on methods used for variance estimation from sample surveys, including Taylor series approximation and replication methods.

Many of the standard statistical software packages, such as SPSS<sup>®7</sup> and older versions of SAS<sup>®</sup>,<sup>8</sup> do not properly compute variance estimates from weighted data that were collected with a design other than simple random sampling. Using standard statistical programs with the appropriate eligibility indicator (ELIGFLGW) and the analytic weight (FINALWGT) to analyze this data will produce accurate point estimates, but variance estimates will not account for the complex sample design. Variables have been included in the analysis file so that Taylor series estimates can be computed for a stratified without replacement design, using either SUDAAN<sup>®9</sup> or the recently available SAS<sup>®</sup> Survey Procedures.

---

<sup>7</sup> SPSS<sup>®</sup> is a registered trademark of SPSS Inc., Chicago, IL, USA.

<sup>8</sup> SAS<sup>®</sup> added survey procedures in Version 7, expanding them in releases 8.0 and higher.

<sup>9</sup> SUDAAN<sup>®</sup> is a trademark of the Research Triangle Institute.

## **Data Structure**

Care was taken in the preparation of the survey analysis files to provide basic access to data from the survey with sufficient information for accurate estimations, while meeting requirements for participant and non-participant anonymity. As described below, some detailed variables have been deleted from the basic survey files either because (a) they provide too great a chance of identifying an individual or (b) they are not needed to analyze the survey data. For the latter reason, some demographic variables are available on basic files only in a collapsed version. In addition to a basic survey file, a full file (containing a more complete set of variables than the basic survey file) has been prepared for internal DMDC use. Files were prepared as SAS<sup>®</sup> and SPSS<sup>®</sup> system files. An ASCII (Operating System or OS) flat file was prepared from the basic survey SAS<sup>®</sup> system file. File names are indicated in Table 13.

**Table 9.**  
**Analysis File Names**

Type of File	File Name
Basic Survey File–SAS	WEOA1301B.7BDAT
Confidential File–SAS	WEOA1301C.7BDAT
Basic Survey File–SPSS	WEOA1301B.SAV
Basic Survey File–OS	WEOA1301B.DAT

The full survey file contains the basic survey file plus additional confidential survey variables. All variables in the full survey file are documented in this report. Appendices E and F list all variables with a notation to indicate which variables are confidential and show where each variable is documented. Intermediate weighting variables that appear only in the full survey file are documented by DMDC (2013a). Variables that appear in collapsed form in the basic survey part of the file and in a fuller version only in the confidential file are discussed later.

## **Analyses**

Both the full survey file and basic survey file contain 88,816 records, one for every sampled individual. As depicted in Figure 3, these records can be divided into 4 subgroups. The *Non-response unweighted* subgroup, includes all records indicated by ELIGFLGW=3, where no usable response was received or no information was received to indicate ineligibility (n=69,505).

Assignment of a record to two other subgroups was based on whether (a) an individual returned a “completed” survey; and (b) the person was eligible to be included in the population of interest. Final eligibility was limited to those in the *September 2012 Active Duty Master Edit File* (ADMF) and who were also in the *November 2012 Defense Enrollment Eligibility Reporting System* (DEERS) *Point-in-Time Extract* (PITE) who did not contact the operations contractor to indicate that they were ineligible. Records that did not meet this requirement were assigned as *Record ineligible unweighted*. Records that respondents had self- or proxy-reported as ineligible

due to death, illness, incarceration, or separated from their service were assigned as *Ineligible weighted*.

Records required for analyses of questions are those in the *Ineligible weighted* and *Eligible weighted* subgroups. Both the *Eligible weighted* (ELIGFLGW=1) and *Ineligible weighted* (ELIGFLGW=2) are included because both types of records were used to develop weights that sum to the population total, and both types of records are needed to compute accurate variance estimates by the Taylor series linearization method implemented by SUDAAN and SAS PROC SURVEYMEANS. Note that one complete eligible respondent requested their answers be withdrawn from the survey, resulting in a decrease in the total eligible respondents to 18,018 that received final weights.

To analyze responses, use the analytic weight, FINALWGT, with the file subset by ELIGFLGW.

**Figure 3.**  
***The Structure of the Full Survey File***

Subgroups	Basic Survey File	Confidential and Detailed Methodological Variables	Eligibility Flag Value and Number of Records
Record ineligible unweighted			ELIGFLGW=4 n= 1,043
Non-response unweighted			ELIGFLGW=3 n= 69,505
Ineligible weighted			ELIGFLGW=2 n= 250
Eligible weighted			ELIGFLGW=1 n= 18,018

Note. The shaded portion represents the subset of the data typically required for analysis.

### ***Variables in the Survey Analysis Files***

#### ***Basic Survey File***

The variables in the basic survey file fall into four categories: (1) Information gathered on the survey, (2) Variables constructed for analysis, (3) Information on operations, and (4) Information on weighting. Variables are grouped in these categories in Appendices F and G.

***Information Gathered on the Survey.*** These variables came directly from the survey or were constructed using only information from the survey. The annotated questionnaire (see Appendix C) contains the item names and the values used to code the pre-specified alternatives. References to applicable coding notes are in Appendix D.

Although the first part of Appendix D extensively documents the conventions that DMDC uses to name survey variables, a brief overview of the naming convention is also given here. In general, the survey-derived variables can be classified as variables that begin with either “SR.” The “SR” variables are a set of primarily demographic items that are identically named across all DMDC surveys. The “SR” serves as a mnemonic for self-report with the remainder of the name indicating the data being collected. For example, “SRRACE” is the variable name for the item that asks sample members what race they consider themselves to be. Although all survey data are self-reported, the “SR” is used to distinguish survey-reported information from DMDC-provided information (e.g., the variable “SRRACE” from the survey is differentiated from the variable “RACE” from DMDC databases).

The remaining survey variables that do not start with “SR” are named unconventionally due to the expectation that they will reoccur in future surveys. This process aids in future analysis needs. For example, “RETINT1” is the variable name for an item that asks the respondent if they would continue to participate in active duty if they could stay. This question will be asked in future surveys.

***Variables for Analysis.*** An “R” as the last letter of a variable listed in Appendices E, F, and G is an indication that the variables may have been recoded to create special analysis variables and that the original variable is available only on the confidential analysis file. Only one version of each variable is available in basic survey file. For example, certain demographic variables, including some information collected on the survey, had to be censored to preserve the anonymity promised to survey respondents and nonrespondents.

Certain key demographic variables were constructed for DMDC analyses. These analytic variables, starting with “X,” are based primarily on self-reported information from the survey. Typically, where the self-reported information was missing on important demographics (e.g., Service, paygrade, location, or respondent gender) data were imputed from members’ administrative record.

The race and ethnicity questions were combined to be reported in accordance with the Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity (1997). Also, items were combined to derive employment indicators based on U.S. Census Bureau’s Decennial Census and Current Population Survey (2002).

Appendix I documents many of the decisions made in the analyses reported by DMDC (2013b). For a large number of survey items, analysts must make decisions on the treatment of special codes (such as Not Applicable).

***Information on Operations.*** This section contains operational variables created by the operations contractor.

**Information on Weighting.** Derivation of weights is discussed in detail in DMDC (2013a). See Appendix J for examples of analyses using these variables:

ELIGFLGW	Eligibility Flag
FINALWGT	Final Weight with Non-response and Postratification Adjustments

## **Full Survey File**

In addition to variables on the basic survey file, the full survey file has five additional categories of variables: (1) the raw version of survey items that appear in a collapsed form in the basic survey file, (2) the raw version of variables used in analyses that appear in a collapsed form in the basic survey file; (3) detailed variables created by the operations contractor to document operations, (4) detailed variables used in sampling, and (5) detailed variables used in weighting. Variables are grouped in these categories in Appendices F and G.

**Information Gathered on the Survey–Confidential.** This section of the full survey file contains the original survey variables that had a recoded version in the basic survey file. To the extent possible, recoded versions of these variables are in the basic survey file section under variables constructed for analysis.

**Variables for Analysis–Confidential.** This section of the full survey file contains the analytic variables constructed by DMDC. To the extent possible, recoded versions of these variables are in the basic survey file section under variables constructed for analysis.

**Information on Operations–Confidential.** This section of the full survey file contains operational variables created by the operations contractor. These variables are useful for methodological studies and/or were used in determining eligibility and response status. The identifying variables describe how the record was processed once a survey was returned. INRECNO is the unique identification number assigned to each record. DUPRET and DUPRET2 indicate the receipt of multiple returns. DUPRET2 includes blank returns in the multiple counts; DUPRET excludes these returns.

The classification variables describe how individual sample member's records were grouped and indexed. FLAG\_FIN indicates the final disposition status of a sample member (i.e., survey returned, blank survey returned, not locatable, or no return). Several other classification variables were used to categorize a survey's final disposition. These variables are: BLKREAS, SCSINEL, and REFUSE. BLKREAS codes the reason given by the sample member for returning a blank survey, SCSINEL indicates the reason given by the sample member for being ineligible, and REFUSE indicates whether a sample member refused to complete a survey.

**Information on Sampling and Record Data–Confidential.** Administrative file variables and constructed variables used in determining the sampling design are included in this section. It also includes the sampling strata identifiers and counts.

**Information on Weighting–Confidential.** Variables used in analysis of non-response and in the construction of the weights are included in this section.

## Using Appendix G

Regardless of whether analysts use all or only portions of the database, all analysts should replicate the results found in the tables in Appendix G. It is only by replicating these results that analysts can be sure that they are reading the data correctly. An annotated example of an Appendix G table is listed in Figure 4.

**Figure 4.**  
**Annotated Example of a Table from G**

<sup>1</sup> 2013 Workplace and Equal Opportunity Survey of Active Duty Members  
Information Gathered on the Survey

How much do you agree or disagree with the following statements about the people you work with at your workplace? Mark one answer for each statement.

<sup>2</sup>ORGWRKB                      <sup>3</sup>Your coworkers put in the effort required for their jobs.

<sup>12</sup>PERCENT TOTAL DOES NOT = 100 DUT TO ROUNDING ERROR

<sup>13</sup>G-4

1. **Codebook title and item text.** The codebook title is the same for every table in Appendix G of this codebook. It lists the survey name, and if applicable, the indented text under the title presents the verbatim question or instructions that accompany a specific item in the survey.
2. **Variable name.** The variable name for a survey item is up to twelve characters in length and corresponds to the variable name that is used in the SAS<sup>®</sup>-based, basic survey data file. The conventions for naming survey-derived variables are documented in Appendix D. Appendices E and F contain a full listing of the basic survey file variables, as well as short descriptions of what the variables document.
3. **Survey item text.** For survey items, this text is the verbatim item wording. For other variables, this text provides a verbal description of the variable.
4. **Location of the item on the OS data file.** This block provides the location of the variable on the OS (ASCII) data file. The OS data block documents (a) the starting and ending column numbers where the data are stored and (b) the number of columns that the data occupy.
5. **SAS<sup>®</sup> data file information.** This block indicates format name, variable type (character or numeric), length, and informat of the data in the SAS<sup>®</sup> data file. The last block indicates the informat appropriate for reading the data from the OS data file.
6. **Counts of item value responses.** This column indicates the number of sample members who fall into the category corresponding to each value for the variable. The count provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 88,816 records in the accompanying database. Before running complex statistical analyses, analysts are encouraged to re-create these frequency tables. Re-creating the counts minimally ensures that the data are being correctly read by the analysts' computers and programs.
7. **Respondent percentages for each value.** This column indicates the percentage of sample members who marked each variable value. The percentages are calculated by dividing the row value in the "FREQ" column by the total listed at the bottom of the "FREQ" column. The percentages provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 88,816 records in the accompanying database.
8. **Response OS values.** This column presents the OS (ASCII) code for the actual or re-coded response values for each survey item. Further details on the values in this column are found in either the annotated survey form (Appendix C) or in Appendix D (e.g., all negative values are found in Appendix D).
9. **Response SAS<sup>®</sup> values.** This column presents the SAS<sup>®</sup> code for the response values for each variable. Further details on the values in this column are found in either the

annotated survey form (Appendix C) or in Appendix D. An explanation of negative values is presented in Appendix D.

10. **Explanation of the item value codes.** This column presents brief verbal explanations of the OS and SAS<sup>®</sup> coding for each survey item. If the coded information corresponds to survey response alternatives, the text in the table is the verbatim response from the survey instrument. More detailed explanations are found in either the annotated survey form (Appendix C) or in Appendix D.
11. **Total of response frequencies and percents.** The number appearing at the bottom of the “FREQ” column is the total number of sample members in the basic survey file. This number is the same for every table in this codebook. That is, every sample member in the database is accounted for on every variable even if the variable indicates only that the information was missing for that sample member. The number appearing at the bottom of the “PERCENT” column is typically 100.0. Rounding error, however, occasionally causes the total percentage to be slightly above or below 100.0.
12. **Messages to analysts.** The messages alert analysts to situations specific to a variable including (a) rounding errors resulting in a total percentage other than 100 percent; (b) the variable having values that are “too numerous to list;” (c) extraction of the variable from another specified database; (d) creation of the variable from two or more variables specified in the message; and (e) further clarification of the survey item corresponding to the variable.
13. **Codebook page number.** This is the Appendix G page number corresponding to a specific variable. Appendices E and F identify the page number in Appendix G where the variable can be found.

# **Appendix A**

**2013 Workplace and Equal Opportunity Survey of Active  
Duty Members**

**2013 Workplace and Equal Opportunity Survey of Active Duty Members**

**YOUR BACKGROUND**

**1. Were you on active duty on April 15, 2013?**

- ☐ Yes  
☐ No, I separated or retired

\*\*\*\*\* Page Break \*\*\*\*\*

**YOUR BACKGROUND**

**2. Are you...?**

- ☐ Male  
☐ Female

\*\*\*\*\* Page Break \*\*\*\*\*

**YOUR BACKGROUND**

**3. Are you Spanish/Hispanic/Latino?**

- ☐ No, not Spanish/Hispanic/Latino  
☐ Yes, Mexican, Mexican-American, Chicano, Puerto Rican, Cuban, or other Spanish/Hispanic/Latino

\*\*\*\*\* Page Break \*\*\*\*\*

## YOUR BACKGROUND

**4. What is your race? Mark one or more races to indicate what race you consider yourself to be.**

- ☐ White
- ☐ Black or African American
- ☐ American Indian or Alaska Native
- ☐ Asian (for example, Asian Indian, Chinese, Filipino, Japanese, Korean, or Vietnamese)
- ☐ Native Hawaiian or other Pacific Islander (for example, Samoan, Guamanian, or Chamorro)

\*\*\*\*\* Page Break \*\*\*\*\*

## SATISFACTION AND RETENTION INTENTION

**5. How many years of active duty service have you completed (including enlisted, warrant officer, and commissioned officer time)? To indicate less than one year, enter "0".**

Years

\*\*\*\*\* Page Break \*\*\*\*\*

## SATISFACTION AND RETENTION INTENTION

**6. Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it you would choose to do so?**

- ☐ Very likely
- ☐ Likely
- ☐ Neither likely nor unlikely
- ☐ Unlikely
- ☐ Very unlikely

\*\*\*\*\* Page Break \*\*\*\*\*

## SATISFACTION AND RETENTION INTENTION

7. Overall, how satisfied are you with the military way of life?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

\*\*\*\*\* Page Break \*\*\*\*\*

## TEMPO

8. In the past 12 months, have you been deployed for any of the following operations?  
*Mark "Yes" or "No" for each item.*

	Yes	No
a. Operation Enduring Freedom (Afghanistan)	<input type="checkbox"/>	<input type="checkbox"/>
b. Operation Iraqi Freedom/New Dawn	<input type="checkbox"/>	<input type="checkbox"/>
c. Other	<input type="checkbox"/>	<input type="checkbox"/>

\*\*\*\*\* Page Break \*\*\*\*\*

## TEMPO

Please specify the other operation for which you were deployed in the past 12 months.

\*\*\*\*\* Page Break \*\*\*\*\*

## TEMPO

9. In the past 12 months, have you been deployed to a combat zone or an area where you drew imminent danger pay or hostile fire pay?

- ☐ Yes  
☐ No

\*\*\*\*\* Page Break \*\*\*\*\*

## YOUR MILITARY WORKPLACE

10. Question omitted.<sup>1</sup>

\*\*\*\*\* Page Break \*\*\*\*\*

## YOUR MILITARY WORKPLACE

11. How much do you agree or disagree with the following statements about your immediate supervisor? *Mark one answer for each statement.*

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
a. You trust your supervisor.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Your supervisor ensures that all assigned personnel are treated fairly.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. There is very little conflict between your supervisor and the people who report to him/her.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Your supervisor evaluates your work performance fairly.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Your supervisor assigns work fairly in your work group.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. You are satisfied with the direction/supervision you receive.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

\*\*\*\*\* Page Break \*\*\*\*\*

<sup>1</sup> Question 10 omitted due to an expired copyright.

## YOUR MILITARY WORKPLACE

**12. In your opinion, have you had a formal and/or informal mentor who advised you on your military career? *Mark one.***

- ☐ Yes, I have had at least one formal mentor (e.g., assigned/provided to you as part of a formal mentorship program)
- ☐ Yes, I have had at least one informal mentor
- ☐ Yes, I have had both a formal and informal mentor
- ☐ No, I have not had a mentor

\*\*\*\*\* Page Break \*\*\*\*\*

## YOUR MILITARY WORKPLACE

**13. To what extent have your mentorship experiences helped you to advance your military career? *Mark one answer for each item.***

	Helped to a very large extent	Helped to a large extent	Helped to a moderate extent	Helped to a small extent	Did not help at all
a. Experiences in a <u>formal</u> mentorship program	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. <u>Informal</u> mentorship experiences	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

\*\*\*\*\* Page Break \*\*\*\*\*

## YOUR MILITARY WORKPLACE

**14. For each of the items below, indicate how useful your most effective mentor's assistance was to advancing your military career. *Mark one answer for each item.***

	Very useful	Largely useful	Moderately useful	Somewhat useful	Not at all useful	Did not provide
a. Advising you on ways to handle challenging assignments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Providing you with challenging assignments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Helping you get developmental assignments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Helping you develop skills/competencies for future assignments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Providing career guidance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Inviting you to observe activities at his/her level	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g. Providing sponsorship/contacts to help advance your career	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
h. Shielding you from those who would interfere with your career advancement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i. Acting as a role model for you	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
j. Advising you on organizational politics	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
k. Providing support and encouragement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
l. Providing personal and social guidance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

26. In the past month, how often have you... *Mark one answer for each item.*

	Never	Almost never	Sometimes	Fairly often	Very often
a. Been upset because of something that happened unexpectedly?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Felt that you were unable to control the important things in your life?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Felt nervous and stressed?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Felt confident about your ability to handle your personal problems?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Felt that things were going your way?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Found that you could not cope with all of the things you had to do?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

(Continued) In the past month, how often have you...

	Never	Almost never	Sometimes	Fairly often	Very often
g. Been able to control irritations in your life?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Felt that you were on top of things?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Been angered because of things that were outside of your control?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
j. Felt difficulties were piling up so high that you could not overcome them?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

\*\*\*\*\* Page Break \*\*\*\*\*

## STRESS, HEALTH, AND WELL-BEING

27. Over the past 30 days, have you been bothered by the following problems? *Mark one answer for each item.*

	Not at all	Several days	More than half the days	Nearly every day
a. Little interest or pleasure in doing things	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Feeling down, depressed, or hopeless	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Trouble falling or staying asleep, or sleeping too much	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Feeling tired or having little energy	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Poor appetite or overeating	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Feeling bad about yourself—or that you are a failure or have let yourself or your family down	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

(Continued) Over the past 30 days, have you been bothered by the following problems?

	Not at all	Several days	More than half the days	Nearly every day
g. Trouble concentrating on things, such as reading the newspaper or watching television	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Moving or speaking so slowly that other people could have noticed. Or the opposite—being so fidgety or restless that you have been moving around a lot more than usual	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

\*\*\*\*\* Page Break \*\*\*\*\*

## RACIAL/ETHNIC EXPERIENCES

28. How frequently during the past 12 months have you been in circumstances where you thought

- **Military Personnel** (Active Duty or Reserve)
  - on- or off-duty
  - on- or off-installation; and/or
- **DoD/DHS Civilian Employees** and/or **Contractors**
  - In your workplace or on or off your installation/ship... *Mark one answer for each item.*

	Never	Once or twice	Sometimes	Often
a. Made unwelcome attempts to draw you into an offensive discussion of racial/ethnic matters?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Told stories or jokes which were racist or depicted your race/ethnicity negatively?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Were condescending to you because of your race/ethnicity?				

(Continued) How frequently during the past 12 months have you been in circumstances where you thought...

	Never	Once or twice	Sometimes	Often
d. Put up or distributed materials (for example, pictures, leaflets, symbols, graffiti, music, stories) which were racist or showed your race/ethnicity negatively?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Displayed tattoos or wore distinctive clothes which were racist?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Did not include you in social activities because of your race/ethnicity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g. Made you feel uncomfortable by hostile looks or stares because of your race/ethnicity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
h. Made offensive remarks about your appearance (for example, about skin color) because of your race/ethnicity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i. Made offensive remarks about your accent or language skills?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
j. Made remarks suggesting that people of your race/ethnicity are not suited for the kind of work you do?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
k. Made other offensive remarks about your race/ethnicity (for example, referred to your race/ethnicity with an offensive name)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
l. Vandalized your property because of your race/ethnicity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
m. <u>Hazed</u> you (for example, experienced forced behaviors that were cruel, abusive, oppressive, or harmful) because of your race/ethnicity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

(Continued) How frequently during the past 12 months have you been in circumstances where you thought...

	Never	Once or twice	Sometimes	Often
n. <u>Bullied</u> you (for example, experienced verbal or physical behaviors that were threatening, humiliating, or intimidating) because of your race/ethnicity?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
o. Made you feel threatened with retaliation if you did not go along with things that were racially/ethnically offensive to you?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
p. Physically threatened or intimidated you because of your race/ethnicity?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
q. Assaulted you physically because of your race/ethnicity?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
r. Other race/ethnicity-related experiences?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

### **Communications**

4000 DEFENSE PENTAGON  
WASHINGTON, D.C. 20301-4000

[illegible]

Dear Sergeant Doe:

You have been selected to participate in the *2013 Workplace and Equal Opportunity Survey of Active Duty Members*. This survey measures your attitudes and opinions about your workplace and experiences over the past year. The survey will also seek your views on race/ethnic policies and programs. This information will assist us in identifying areas where improvements are needed. While your participation is desired, it is entirely voluntary and all of your responses are confidential.

This is your chance to influence the formulation of military personnel policies. These surveys are *Official Business* and can be completed at your duty station, using government equipment. If you choose, you can also complete the survey at home or elsewhere. If you log on from a non-DoD computer, you may be prompted with a security alert. If so, follow the instructions and proceed to DoD's secure survey Web site.

The survey is available at the following Web site:  
<https://www.dmdc.osd.mil/dodsurvey> At the Web site, you will be asked to enter your  
**Ticket Number.** Your number is **GAXXXXXX**

If you would like to update your postal or email address to receive communications about this survey, you can do so at the Web site above. If you cannot access the Web site or if you have questions pertaining to the survey, please call our Survey Processing Center toll-free at 1-800-881-5307, e-mail **weo-survey@mail.mil**, or send a fax to 1-763-268-3002. If you do not wish to participate or to receive reminders about this survey, you may remove yourself from the mailing list by contacting the Survey Processing Center. Be sure to include your Ticket Number in all communications.

For your convenience, DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy. Call 372-1034 from any DoD or other government telephone with DSN for a list of current data collections by licensed DMDC surveys. If you do not have access to a DSN telephone line, you can call 1-571-372-1034. This prerecorded list does not include surveys being conducted by other DoD offices.

Your time and cooperation in this very important effort are greatly appreciated.

Sincerely,

Mary Snively-Dixon

Mary Snavelly-Dixon  
Director, Defense Manpower Data Center

**P.S. for families:** We need to hear from all members selected to take the survey. If the person addressed in this letter is away from home, please forward the letter to them.

Dear Sergeant Doe:

Recently, you were asked to participate in the *2013 Workplace and Equal Opportunity Survey of Active Duty Members*. At the time this letter was prepared, your completed questionnaire had not been received. Because your views and opinions are important, I urge you to take this opportunity to complete the survey. Your views matter a great deal in our efforts to improve military workplace policies and programs. While your participation is desired, it is entirely voluntary and all of your responses are confidential.

If you have already completed the survey, thank you for taking the time to do so. If you have not yet completed the survey, you may still log on to the following Web site to finish the survey. Go to <https://www.dmdc.osd.mil/dodsurvey> and input your Ticket Number: **GAXXXXXX**

Most people take approximately 30 minutes to complete the survey. You can complete the survey at work, home, or on any computer with Internet access. I assure you that all data will be reported in the aggregate and no individual data will be reported.

If you have any questions pertaining to the survey, please call our Survey Processing Center toll-free at 1-800-881-5307, e-mail [weo-survey@mail.mil](mailto:weo-survey@mail.mil), or send a fax to 1-763-268-3002. If you do not wish to participate or to receive reminders about this survey, you may remove yourself from the mailing list by contacting the Survey Processing Center. Be sure to include your Ticket Number in all communications. If you wish to withdraw your answers after starting this survey, notify the Survey Processing Center prior to July 17, 2013. You will be required to provide your Ticket Number.

Your time and cooperation in this very important effort are greatly appreciated.

Sincerely,

*Mary Snavelly-Dixon*

Mary Snavelly-Dixon  
Director, Defense Manpower Data Center

**P.S. for families:** We need to hear from all members selected to take the survey. If the person addressed in this letter is away from home, please forward the letter to them.

June 10, 2013

Dear Sergeant Doe:

Recently, you were asked to participate in the *2013 Workplace and Equal Opportunity Survey of Active Duty Members*. If you have already completed the survey, thank you for taking the time to do so. If you have not yet completed the survey, I encourage you to do so.

The survey findings will be reviewed by senior Defense officials and used in the formulation of military personnel policies. You were scientifically selected, as part of a small group of people, to participate in this survey. Therefore, your answers will represent the views of many others like yourself. The success of this method is dependent on you and others like you who are willing to complete the questionnaire. While your participation is desired, it is entirely voluntary and your responses are confidential.

Your survey answers make a difference. Survey results play an important role in policy deliberations. Results from previous equal opportunity surveys are available on the following Web site: <http://www.dmdc.osd.mil/surveys>

To access the survey, go to **<https://www.dmdc.osd.mil/dodsurvey>** At the Web site, you will need to enter your **Ticket Number: GAXXXXXX**

If you have partially completed the survey, but have not clicked the “Submit Button,” please go back, log onto the Web site, complete as many items as you can, and submit the survey to us. After July 17, 2013 we will consider whatever items you have completed to be your intended response.

If you have any questions pertaining to the survey, please call our Survey Processing Center toll-free at 1-800-881-5307, e-mail **weo-survey@mail.mil**, or send a fax to 1-763-268-3002. If you do not wish to participate or to receive reminders about this survey, you may remove yourself from the mailing list by contacting the Survey Processing Center. Be sure to include your Ticket Number in all communications. If you wish to withdraw your answers after starting this survey, notify the Survey Processing Center prior to July 17, 2013. You will be required to provide your Ticket Number.

Your time and cooperation in this very important effort are greatly appreciated.

Sincerely,

Mary Snively-Dixon

Mary Snavelly-Dixon  
Director, Defense Manpower Data Center

**P.S. for families:** We need to hear from all members selected to take the survey. If the person addressed in this letter is away from home, please forward the letter to them.

From: Workplace and Equal Opportunity Survey [WEOSurvey@dmdc.osd.mil]  
Sent: Monday, April 15, 2013 2:00 PM  
To: Captain Smith  
Subject: 2013 Workplace and Equal Opportunity Survey of Active Duty Members  
(ANNOUNCE)

Dear CAPTAIN SMITH:

Your Ticket Number: ANNOUNCE

As an active duty member, you have been selected to participate in the "2013 Workplace and Equal Opportunity Survey of Active Duty Members." I want to hear your attitudes and opinions about your workplace and experiences over the past year. This is your chance to have your input included in developing policies and programs that will support military members. While participation is voluntary, your opinions are very important.

The survey is now available at this Web site: <https://www.dmdc.osd.mil/dodsurvey>

Simply click on this address to go directly to the Web site. If this does not work, "copy and paste" this address into the Web address box of your Internet browser (be sure to enter the Web address into the address box, not into a search engine, such as Google).

The survey should take 30 minutes or less to complete. Please try to take the survey today. Once you have accessed the Web site, you will need to enter the following Ticket Number to log on: ANNOUNCE

These surveys are "Official Business," and can be completed at your work station using government equipment. You can also complete the survey at home or elsewhere. If you log on from a non-DoD computer, you may be prompted with a security alert. If so, follow the instructions and proceed to DoD's secure survey Web site.

It is not necessary to complete the survey in one sitting. You can start and stop as necessary. If you have any questions or concerns, please call our Survey Processing Center toll-free at 1-800-881-5307 or e-mail [weo-survey@mail.mil](mailto:weo-survey@mail.mil). If, however, you do not wish to participate or to receive additional reminders about this survey, you may remove yourself from the mailing list by replying to this message. Include your Ticket Number and the words, "Please remove me from this survey's mailing list." If you wish to withdraw your answers after starting this survey, notify the Survey Processing Center prior to July 17, 2013. You will be required to provide your Ticket Number.

For your convenience, DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy. Call 372-1034 from any DoD or other government telephone with DSN for a list of current data collections by licensed DMDC surveys. If you do not have access to a DSN telephone line, you can call 1-571-372-1034. This prerecorded list does not include surveys being conducted by other DoD offices.

In compliance with DoD regulation, this communication has been digitally signed to authenticate the source of the message.

Thank you for participating in the "2013 Workplace and Equal Opportunity Survey of Active Duty Members."

P.S. for families: We need to hear from everyone selected to take the survey. If the person addressed in this e-mail is away from home, please forward this message to them.

If you wish to withdraw your answers after starting this survey, notify the Survey Processing Center prior to July 17, 2013. You will be required to provide your Ticket Number.

For your convenience, DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy. Call 372-1034 from any DoD or other government telephone with DSN for a list of current data collections by licensed DMDC surveys. If you do not have access to a DSN telephone line, you can call 1-571-372-1034. This prerecorded list does not include surveys being conducted by other DoD offices.

In compliance with DoD regulation, this communication has been digitally signed to authenticate the source of the message.

Again, thank you for completing the survey.

P.S. for families: We need to hear from everyone selected to take the survey. If the person addressed in this e-mail is away from home, please forward this message to them.

From: Workplace and Equal Opportunity Survey [WEOSurvey@dmdc.osd.mil]  
Sent: Tuesday, July 16, 2013 2:00 PM  
To: Captain Smith  
Subject: 2013 Workplace and Equal Opportunity Survey of Active Duty Members (REMIND9)

Dear CAPTAIN SMITH:

Your Ticket Number: REMIND9

For those who have completed the "2013 Workplace and Equal Opportunity Survey of Active Duty Members", thank you. If you have not had a chance to complete the survey, please try to take the time to take the survey before the Web site shuts down on July 17, 2013. Your opinions are very important, especially at this critical time. Your responses are confidential and your participation is voluntary.

The Web site for the survey is: <https://www.dmdc.osd.mil/dodsurvey>

Simply click on this address to go directly to the Web site. If this does not work, "copy and paste" this address into the Web address box of your Internet browser. Once at the Web site, you will need to enter the following Ticket Number: REMIND9

If you have partially completed the survey, but have not clicked the "Submit Button," please go back, log onto the Web site, complete as many items as you can and submit the survey to us. After July 17, 2013, we will consider whatever items you have completed to be your intended response.

Be assured that all data will be reported in the aggregate and no individual data will be reported.

If you have any questions or concerns, please call our Survey Processing Center toll-free at 1-800-881-5307 or e-mail [weo-survey@mail.mil](mailto:weo-survey@mail.mil). If, however, you do not wish to participate or to receive additional reminders about this survey, you may remove yourself from the mailing list by replying to this message. Include your Ticket Number and the words, "Please remove me from this survey's mailing list." If you wish to withdraw your answers after starting this survey, notify the Survey Processing Center prior to July 17, 2013. You will be required to provide your Ticket Number.

For your convenience, DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy. Call 372-1034 from any DoD or other government telephone with DSN for a list of current data collections by licensed DMDC surveys. If you do not have access to a DSN telephone line, you can call 1-571-372-1034. This prerecorded list does not include surveys being conducted by other DoD offices.

In compliance with DoD regulation, this communication has been digitally signed to authenticate the source of the message.

Again, thank you for completing the survey.

P.S. for families: We need to hear from everyone selected to take the survey. If the person addressed in this e-mail is away from home, please forward this message to them.

## Marines Online (MOL) Posting—Announcement

You have been selected to participate in the *2013 Workplace and Equal Opportunity Survey of Active Duty Members*. This survey measures your attitudes about your workplace and experiences over the past year. This survey will also seek your views on race/ethnic policies and programs. This information will assist us in identifying areas where improvements are needed. Everyone's opinion is valued and we appreciate your taking the time to complete the survey. All of your responses will be confidential, and though your participation is desired, it is entirely voluntary.

Please take the time today to complete the survey by going to the Web site: **<https://www.dmdc.osd.mil/dodsurvey>**. At the Web site, you will be asked to enter your **Ticket Number: [TICKET\_NUM]**. Most people complete the survey within 30 minutes.

These surveys are *Official Business* and can be completed at your duty station, using government equipment. If you choose, you can also complete the survey at home or elsewhere. If you log on from a non-DoD computer, you may be prompted with a security alert. If so, follow the instructions and proceed to DoD's secure survey Web site.

If you cannot access the Web site or if you have questions pertaining to the survey, please call our Survey Processing Center toll-free at 1-800-881-5307, e-mail **weo-survey@mail.mil**. If you do not wish to participate, you may remove yourself from the mailing list by contacting the Survey Processing Center. Be sure to include your Ticket Number in all communications.

For your convenience, DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy. Call 372-1034 from any DoD or other government telephone with DSN, for a list of current data collections by licensed DMDC surveys. If you do not have access to a DSN telephone line, you can call 1-571-372-1034.

Thank you for your time and assistance in this very important effort.

## Marines Online (MOL) Posting—Reminder

Recently you were asked to participate in the *2013 Workplace and Equal Opportunity Survey of Active Duty Members*. Your completed questionnaire has not been received at the Survey Processing Center. If you have already completed the survey, we want to thank you. If not, please do so today. Your participation is crucial as results from this survey will be reviewed by senior Defense officials and used in the formulation of military personnel policies. This is your chance to express your views on race/ethnic policies and programs and to identify areas where improvements are needed. Though your participation is desired, it is entirely voluntary.

To access the survey, log on to the following Web site **<https://www.dmdc.osd.mil/dodsurvey>**. You will need to enter your **Ticket Number: [TICKET\_NUM]**.

Most people take 30 minutes on average to complete the survey. You can complete the survey at work, home, or on any computer with Internet access.

Your participation in this survey effort is important. You were scientifically selected, as part of a small group of people, to participate in this survey. Therefore, your answers will represent the views of many others like yourself. The success of this method is dependent on you and others like you who are willing to complete the questionnaire.

If you cannot access the Web, or you experience any other problem with the survey, please e-mail **weo-survey@mail.mil** or call, toll-free, 1-800-881-5307. If you do not wish to participate in this survey, you may remove yourself from the mailing list by contacting the Survey Processing Center. Be sure to include your Ticket Number in all communications. If you wish to withdraw your answers after starting this survey, notify the Survey Processing Center prior to July 17, 2013.

Your time and cooperation in this very important effort are greatly appreciated.

# **Appendix C**

## **Annotated Web Survey Form**

## 2013 Workplace and Equal Opportunity Survey of Active Duty Members

### YOUR BACKGROUND

SRELIG

**1. Were you on active duty on April 15, 2013?**

- 2 ☐ Yes  
1 ☐ No, I separated or retired

\*\*\*\*\* Page Break \*\*\*\*\*

### YOUR BACKGROUND

*NOT ([SRELIG] = "No, I separated or retired")*

SRSEX

**2. Are you...?**

- 1 ☐ Male  
2 ☐ Female

\*\*\*\*\* Page Break \*\*\*\*\*

### YOUR BACKGROUND

*NOT ([SRELIG] = "No, I separated or retired")*

SRHISPA

**3. Are you Spanish/Hispanic/Latino?**

- 1 ☐ No, not Spanish/Hispanic/Latino  
2 ☐ Yes, Mexican, Mexican-American, Chicano, Puerto Rican, Cuban, or other Spanish/Hispanic/Latino

\*\*\*\*\* Page Break \*\*\*\*\*

## YOUR BACKGROUND

NOT ([SRELIG] = "No, I separated or retired")

SRRACEA, SRRACEB, SRRACEC, SRRACED, SRRACEE

**4. What is your race? Mark one or more races to indicate what race you consider yourself to be.**

- ☐ White
- ☐ Black or African American
- ☐ American Indian or Alaska Native
- ☐ Asian (for example, Asian Indian, Chinese, Filipino, Japanese, Korean, or Vietnamese)
- ☐ Native Hawaiian or other Pacific Islander (for example, Samoan, Guamanian, or Chamorro)

\*\*\*\*\* Page Break \*\*\*\*\*

## SATISFACTION AND RETENTION INTENTION

NOT ([SRELIG] = "No, I separated or retired")

SRYEARS

**5. How many years of active duty service have you completed (including enlisted, warrant officer, and commissioned officer time)? To indicate less than one year, enter "0".**

Years

\*\*\*\*\* Page Break \*\*\*\*\*

## SATISFACTION AND RETENTION INTENTION

NOT ([SRELIG] = "No, I separated or retired")

RETINT1

**6. Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it you would choose to do so?**

- 5 ☐ Very likely
- 4 ☐ Likely
- 3 ☐ Neither likely nor unlikely
- 2 ☐ Unlikely
- 1 ☐ Very unlikely

\*\*\*\*\* Page Break \*\*\*\*\*

## SATISFACTION AND RETENTION INTENTION

NOT ([SRELIG] = "No, I separated or retired")

SATOVER

**7. Overall, how satisfied are you with the military way of life?**

- 5 ☐ Very satisfied  
4 ☐ Satisfied  
3 ☐ Neither satisfied nor dissatisfied  
2 ☐ Dissatisfied  
1 ☐ Very dissatisfied

\*\*\*\*\* Page Break \*\*\*\*\*

**TEMPO**

NOT ([SRELIG] = "No, I separated or retired")

OPSA, OPSB, OPSC

**8. In the past 12 months, have you been deployed for any of the following operations?  
Mark "Yes" or "No" for each item.**

	Yes	No
a. Operation Enduring Freedom (Afghanistan)	<u>2</u> <input type="radio"/>	<u>1</u> <input type="radio"/>
b. Operation Iraqi Freedom/New Dawn	<input type="radio"/>	<input type="radio"/>
c. Other	<input type="radio"/>	<input type="radio"/>

\*\*\*\*\* Page Break \*\*\*\*\*

**TEMPO**

NOT ([SRELIG] = "No, I separated or retired") AND ([OPSC] = "Yes")

OPSSP

**Please specify the other operation for which you were deployed in the past 12 months.**

\*\*\*\*\* Page Break \*\*\*\*\*

## TEMPO

NOT ([SRELIG] = "No, I separated or retired") AND ([OPSA] = "Yes" OR [OPSB] = "Yes" OR [OPSC] = "Yes")  
DPLYCZPAY

**9. In the past 12 months, have you been deployed to a combat zone or an area where you drew imminent danger pay or hostile fire pay?**

2 ☐ Yes

1 ☐ No

\*\*\*\*\* Page Break \*\*\*\*\*

## YOUR MILITARY WORKPLACE

**10. Question omitted.<sup>1</sup>**

\*\*\*\*\* Page Break \*\*\*\*\*

---

<sup>1</sup> Question 10 omitted due to an expired copyright.

## YOUR MILITARY WORKPLACE

NOT ([SRELIG] = "No, I separated or retired")

MILSUPA, MILSUPB, MILSUPC, MILSUPD, MILSUPE, MILSUPF

**11. How much do you agree or disagree with the following statements about your immediate supervisor? Mark one answer for each statement.**

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
a. You trust your supervisor.	<u>5</u> <input type="radio"/>	<u>4</u> <input type="radio"/>	<u>3</u> <input type="radio"/>	<u>2</u> <input type="radio"/>	<u>1</u> <input type="radio"/>
b. Your supervisor ensures that all assigned personnel are treated fairly.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. There is very little conflict between your supervisor and the people who report to him/her.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Your supervisor evaluates your work performance fairly.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Your supervisor assigns work fairly in your work group.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. You are satisfied with the direction/supervision you receive.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

\*\*\*\*\* Page Break \*\*\*\*\*

## YOUR MILITARY WORKPLACE

NOT ([SRELIG] = "No, I separated or retired")

MENTOR

**12. In your opinion, have you had a formal and/or informal mentor who advised you on your military career? Mark one.**

- 1   ☐ Yes, I have had at least one formal mentor (e.g., assigned/provided to you as part of a formal mentorship program)
- 2   ☐ Yes, I have had at least one informal mentor
- 3   ☐ Yes, I have had both a formal and informal mentor
- 4   ☐ No, I have not had a mentor

\*\*\*\*\* Page Break \*\*\*\*\*

## YOUR MILITARY WORKPLACE

MENTEXPA, MENTEXPB

**13. To what extent have your mentorship experiences helped you to advance your military career? Mark one answer for each item.**

	Helped to a very large extent	Helped to a large extent	Helped to a moderate extent	Helped to a small extent	Did not help at all
<i>NOT ([SRELIG] = "No, I separated or retired") AND ([MENTOR] = "Yes, I have had at least one formal mentor (e.g., assigned/provided to you as part of a formal mentorship program)" OR [MENTOR] = "Yes, I have had both a formal and informal mentor")</i>					
a. Experiences in a <u>formal</u> mentorship program	<u>5</u> <input type="radio"/>	<u>4</u> <input type="radio"/>	<u>3</u> <input type="radio"/>	<u>2</u> <input type="radio"/>	<u>1</u> <input type="radio"/>
<i>NOT ([SRELIG] = "No, I separated or retired") AND ([MENTOR] = "Yes, I have had at least one informal mentor" OR [MENTOR] = "Yes, I have had both a formal and informal mentor")</i>					
b. <u>Informal</u> mentorship experiences	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

# **Appendix D**

## **Coding Scheme**

## **APPENDIX D: Coding Scheme for the 2013 Workplace and Equal Opportunity Survey of Active Duty Members**

The guiding premise of coding this and other DMDC surveys is that the analysts creating the dataset will not be the only ones analyzing the data. DMDC rarely collects data only for immediate use or to answer one question. Different people, both at DMDC and other organizations, analyze DMDC datasets over time. Every care is taken in organizing and documenting DMDC surveys so secondary analysts can be reasonably certain they understand both how data were coded and the limitations of the data. This appendix describes (a) conventions for naming variables, (b) methods for capturing data from the survey instrument, and (c) the process of editing survey response variables created for the analysis file.

### ***Variable Naming***

In responding to a customer's request for information, DMDC often uses multiple data sources. Information on a particular topic may need to be obtained from different surveys or from a survey that has been repeated over a number of years. For example, a customer might be interested in organizational commitment items included in a survey of active duty members in 1999 and in an exit survey in 2000. Conventions discussed below are being used as a means for facilitating such analyses.

### ***Survey Variables***

***Standard survey response and operational variables.*** Variables common to DMDC surveys are assigned identical names and values across surveys. Examples of common operational variables are CMTFLAG (indicates whether the respondent entered an end of survey comment) and DARVDATE (date the survey was completed).

***Nonstandard survey response variables.*** Survey item variables are named according to the following conventions (illustrated for the *2013 Workplace and Equal Opportunity Survey of Active Duty Members*):

- Survey variables are named unconventionally due to the expectation that they will reoccur in future surveys. This process aids in future analysis needs. For example, "RETINT1" is the variable name for an item that asks if they could stay as active duty, how likely is that they would choose to do so. This question will be asked in future surveys.
- Variable names may end in "U" (indicating that the values have not been edited to enforce skip pattern consistency) or "R" (indicating that the original values have been recoded for tabulations or other analyses).

***Crossing (domain) variables.*** Survey response or administrative variables may be recoded to define cross tabulation categories for reports or analyses and begin the variable name with "X". See Appendix I for the SAS® code that defines these variables.

## ***Raw-Data Encoding Process***

When a respondent completes an online survey, data are stored in an indexed file on the Web (data) server. This file is copied to the operations contractor's internal network and the data are matched to the sample file, attaching each member's survey responses to the sample record. The data are then cleaned in an iterative multi-step process. First, values are assigned to valid responses (see Appendix D for the annotated form) and item nonresponse is coded (-9). Then the process creates flag variables for respondent-specified items; flags, validates, and codes skip pattern variables; codes the content of text entries.

The Web survey form's "other specify" and open-ended comments are collected in a comment file and linked to the Web survey data by ticket number. All text entries are cleaned and edited to remove identifying information and expletives. The long comment item at the end of the questionnaire is keyed in a separate process. The comments data are confidential and are not merged into the returns dataset.

## ***Value Coding and Formats***

Datasets are prepared as SAS<sup>®1</sup> system files. An OS or flat file version of the basic survey release file is then prepared from the SAS<sup>®</sup> system file. This section describes how values are treated in creating the SAS<sup>®</sup> system files and notes any differences in the flat file.

In the SAS<sup>®</sup> system files, variables are declared as numeric unless they contain true alphabetic characters. Although numeric variables can take more storage space, many statistical and logical operations can be done only with variables that are declared as numeric. Values for alphabetic variables are input with \$CHARww. formats to preserve leading, embedded, and trailing blanks.

## ***Missing Data Codes***

The instructions used to assign missing data codes and other special codes are shown in Tables D-1 and D-2. The labels associated with each assigned value are shown in italicized text. These are the SAS<sup>®</sup> format labels used in the SAS<sup>®</sup> dataset.

- Table D-1 contains basic SAS<sup>®</sup> and flat file missing data values.
- Table D-2 contains SAS and flat file missing data values for dates.

The values presented in Table D-1 are general missing data values that have been adopted in recent years for use on DMDC surveys. (Standards for date variables are in Table D-2.) Both tables have separate columns for values used for SAS<sup>®</sup> system files and flat files. The biggest difference between the flat files and SAS<sup>®</sup> system files is in the treatment of missing values. The flat file values differ from the SAS<sup>®</sup> values because SAS<sup>®</sup> implements special missing values and formats that may not be compatible with other statistical analysis software such as SPSS.<sup>2</sup>

**Table D-1.**  
**Basic SAS® and Flat Missing Data Values**

SAS® File		Flat File		
Numeric	Alpha	Numeric	Alpha	Description
.	.	-9	.	<i>No response or missing skip</i>
.S	.S	-8	.S	<i>Survey self-report ineligible</i>
.O	.O	-7	.O	<i>Out-of-range</i>
.N	.N	-6	.N	<i>Not applicable or Valid skip</i>
.F	.F	-5	.F	<i>Variable not on survey form.</i> This value is reserved for multiple-form surveys
.I	.I	-4	.I	<i>Incomplete grid error</i>
.B	.B	-1	.B	<i>No survey returned.</i> Filler values for survey variables when either a blank survey is returned or no survey is returned. Control system variables retain assigned values.
.D	.D		.D	<i>Did not experience</i>

**Table D-2.**  
**SAS® and Flat File Missing Data Values for Dates**

SAS® File		Flat File		
Re-coded value	Value read from input	YYYYMMDD	MMYYYYYY	Description
.	-54908	18090901	SEP1809	<i>No response (invalid skip)</i>
.O	-55701	18070701	JUL1807	<i>Out-of-range error</i>
.N	-56096	18060601	JUN1806	<i>Not applicable (valid skip)</i>
.I	-56887	18040401	APR1804	<i>Incomplete grid error</i>
.B	-58073	18010101	JAN1801	<i>No survey returned.</i> Filler values for survey variables when either a blank survey is returned or no survey is returned. Control system variables retain assigned values.

*Note:* This conversion has already been done in DMDC SAS® files.

SAS® can represent up to 27 missing data values for numeric variables as either a period or a period-letter combination. While SAS® can read alpha characters representing missing data in a raw data field declared to be numeric, other programs such as SPSS do not accept these characters in numeric fields. Missing numeric data are represented in the flat files by negative numbers that can be declared as missing values. For example, an incomplete grid error in flat files is coded as a “-4”, which can be declared as a missing value when the data are input in SPSS—in the SAS® file, the value “.I” is used to represent an incomplete grid error.

Data requirements of SUDAAN<sup>3</sup> are also considered in coding. Primarily this means avoiding in coding the use of a zero, which has a special use for certain procedures in SUDAAN, for a variable that will be used as a categorical independent variable.

Many types of missing data are common to scanned surveys and are self-explanatory. In general, missing data are coded as “-9” (SAS®: .) for item nonresponse; survey self-report ineligibles are coded as “-8” (SAS®: .S). Incomplete responses in grids that could not be resolved by visual inspection or multiple response errors on paper surveys are coded as “-4” (SAS®: .I). Out-of-Range responses in grids (e.g., number of days or weeks in a year larger than 365 or 52, respectively) are coded as “-7” (SAS®: .O). For a single item that contains a response alternative of “Not applicable”, a missing data code of “-6” (SAS®: .N) is typically used. When multiple items can be affected by a skip pattern or when item(s) have multiple ways to be not applicable, other specific codes are used. This type of coding is discussed later in the section entitled “Skip Pattern Coding.”

Multiple survey forms or modes (e.g., paper and web) are sometimes used in a single effort, and the data from all the related forms combined into a single dataset for analysis. Questions may appear in one form or mode but not in another. In a combined dataset, a code of “-5” (SAS®: .F) indicates missing data for variables not on the form completed by a respondent.

Records are included in the files for sampled members regardless of whether or not they returned a survey. If a member did not return a survey or returned a blank survey, every survey variable is assigned a value of “-1” (SAS®: .B).

### ***Standard Flag Variables***

Skip pattern flags indicate whether one or more questions were or are not to be asked of respondents. For example, if respondents to this survey indicated in Question 8 that they have not been deployed for any of the operations listed in the past 12 months (OPSA = “No” AND OPSB = “No” AND OPSC = “No”), they did not see Question 9 (DPLYCZPAY) which asked, “In the past 12 months, have you been deployed to a combat zone or an area where you drew imminent danger pay or hostile fire pay?” DPLYCZPAYSK is a flag variable indicating whether Question 9 (DPLYCZPAY) was answered consistently with the skip pattern. The skip flag is then used to remove incongruent responses from the paper form. Skip flags are useful for evaluating the effectiveness of the skip pattern and for screening out ambiguous response patterns during analysis.

Skip flags are set in the manner discussed in Table D-3; however, the specifics for each skip flag are detailed in the next section. Note that the value -9 (SAS®: .) is used to represent missing data in flag variables in a slightly different way than they are used for standard survey variables.

### ***Special Codes for Skip Patterns***

Discrepancies in skip patterns are resolved during data editing. First, skip flags are created. The section Raw-Data Encoding Process introduced the general outline of the skip flags, but the specific flags for each skip pattern are specified in Table D-3.<sup>4</sup> After the creation of all the skip flags, variables within the skip patterns are forward coded to make them consistent with the variables that start the skip patterns. To preserve all data, the variables within skip patterns are first copied to a set of confidential variables. The convention for naming these “raw” variables is to end the name with “U” for Unedited. Table D-3

---

<sup>3</sup> SUDAAN is a trademark of the Research Triangle Institute.

<sup>4</sup> Table E-3 also provides special coding notes for other non-obvious codings.

specifies how to assign the special values to variables within the skip patterns. While Table D-3 is organized to show all the edits for a skip pattern, all skip flags are set prior to undertaking any forward coding. The remainder of this section describes the logic behind coding of skip patterns.

While an analyst can ignore discrepancies between a respondent's answer on an item containing a conditional direction to skip items and answers to those items, it is generally better to resolve the discrepancies. Two ways of resolving the discrepancies can be termed backward and forward coding. Backward coding involves correcting the discrepancy by editing back from the skip pattern items to make the initial question conform. Forward coding involves correcting the discrepancy by editing forward from the initial question to make the skip pattern items conform. Data for this survey are forward coded with data on the starting question accepted as marked and data for the items within the skip pattern edited to be consistent with the starting question.

If a starting item is marked in such a way that the respondent should skip, items within the skip pattern have the not applicable value (.N) assigned regardless of what the respondent marked on the items within the skip pattern. These values differentiate items with data missing because the item should have been skipped from items where data are missing because the respondent should have answered them but did not.

**Table D-3.**  
*Special Coding Notes*

**1. Cleaning for SRYEARS. Top coding cleaning applied to SRYEARS.**

if SRYEARS gt 35 then SRYEARS = 35;

**2. OPSSPSK, OPSSPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**OPSSPSK** is an indicator of whether **OPSSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (OPSC = 2) then **OPSSPSK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**OPSSPU** = **OPSSP**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

If OPSSPSK = 1 then do;  
    OPSSP = '.N';  
end;  
.N = (Not Applicable)

**3. DPLYCZPAYSK, DPLYCZPAYU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**DPLYCZPAYSK** is an indicator of whether **DPLYCZPAY** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (OPSA = 2 OR OPSB = 2 OR OPSC = 2) then **DPLYCZPAYSK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**DPLYCZPAYU** = **DPLYCZPAY**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

If DPLYCZPAYSK = 1 then do;  
    DPLYCZPAY = .N;  
end;  
.N = (Not Applicable)

4. **MENTEXPASK, MENTEXPAU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**MENTEXPASK** is an indicator of whether **MENTEXPA** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (MENTOR = 1 OR MENTOR = 3) then **MENTEXPASK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**MENTEXPAU** = **MENTEXPA**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If MENTEXPASK = 1 then do;  
    MENTEXPA = .N;  
end;  
.N = (Not Applicable)
```

5. **MENTEXPBSK, MENTEXPBU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**MENTEXPBSK** is an indicator of whether **MENTEXPB** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (MENTOR = 2 OR MENTOR = 3) then **MENTEXPBSK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**MENTEXPBU** = **MENTEXPB**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If MENTEXPBSK = 1 then do;  
    MENTEXPB = .N;  
end;  
.N = (Not Applicable)
```

6. **MENTEFFSK, MENTEFFAU, MENTEFFBU, MENTEFFCU, MENTEFFDU, MENTEFFEU, MENTEFFFU, MENTEFFGU, MENTEFFHU, MENTEFFIU, MENTEFFJU, MENTEFFKU, MENTEFFLU.** The following explains how to create the flag variable -- the codebook page should contain this information:

**MENTEFFSK** is an indicator of whether **MENTEFA, MENTEFFB, MENTEFFC, MENTEFFD, MENTEFFE, MENTEFFF, MENTEFFG, MENTEFFH, MENTEFFI, MENTEFFJ, MENTEFFK, MENTEFFL** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (MENTOR = 1 OR MENTOR = 2 OR MENTOR = 3) then **MENTEFFSK** = 2 (Asked).

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

**MENTEFAU = MENTEFA, MENTEFFBU = MENTEFFB, MENTEFFCU = MENTEFFC, MENTEFFDU = MENTEFFD, MENTEFFEU = MENTEFFE, MENTEFFFU = MENTEFFF, MENTEFFGU = MENTEFFG, MENTEFFHU = MENTEFFH, MENTEFFIU = MENTEFFI, MENTEFFJU = MENTEFFJ, MENTEFFKU = MENTEFFK, MENTEFFLU = MENTEFFL,** but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

If MENTEFFSK = 1 then do;

MENTEFA = .N;  
MENTEFFB = .N;  
MENTEFFC = .N;  
MENTEFFD = .N;  
MENTEFFE = .N;  
MENTEFFF = .N;  
MENTEFFG = .N;  
MENTEFFH = .N;  
MENTEFFI = .N;  
MENTEFFJ = .N;  
MENTEFFK = .N;  
MENTEFFL = .N;

end;

.N = (Not Applicable)

**7. MENTFRMSK, MENTFRMU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**MENTFRMSK** is an indicator of whether **MENTFRM** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (MENTOR = 3) then **MENTFRMSK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**MENTFRMU** = **MENTFRM**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If MENTFRMSK = 1 then do;  
    MENTFRM = .N;  
end;  
.N = (Not Applicable)
```

**8. MENTFRMSPSK, MENTFRMSPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**MENTFRMSPSK** is an indicator of whether **MENTFRMSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (MENTOR = 3 AND MENTFRM = 2) then **MENTFRMSPSK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**MENTFRMSPU** = **MENTFRMSP**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If MENTFRMSPSK = 1 then do;  
    MENTFRMSP = '.N';  
end;  
.N = (Not Applicable)
```

9. **RACEMENTSK, RACEMENTAU, RACEMENTBU, RACEMENTCU, RACEMENTDU, RACEMENTEU, RACEMENTFU, RACEMENTGU, MENTSEXU.** The following explains how to create the flag variable -- the codebook page should contain this information:

**RACEMENTSK** is an indicator of whether **RACEMENTA, RACEMENTB, RACEMENTC, RACEMENTD, RACEMENTE, RACEMENTF, RACEMENTG, MENTSEX** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (MENTOR = 1 OR MENTOR = 2 OR MENTOR = 3) then **RACEMENTSK** = 2 (Asked).

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

**RACEMENTAU = RACEMENTA, RACEMENTBU = RACEMENTB, RACEMENTCU = RACEMENTC, RACEMENTDU = RACEMENTD, RACEMENTEU = RACEMENTE, RACEMENTFU = RACEMENTF, RACEMENTGU = RACEMENTG, MENTSEXU = MENTSEX**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

If **RACEMENTSK** = 1 then do;

**RACEMENTA** = .N;

**RACEMENTB** = .N;

**RACEMENTC** = .N;

**RACEMENTD** = .N;

**RACEMENTE** = .N;

**RACEMENTF** = .N;

**RACEMENTG** = .N;

**MENTSEX** = .N;

end;

.N = (Not Applicable)

10. **REHFREQSPSK, REHFREQSPU.** The following explains how to create the flag variable -- the codebook page should contain this information:

**REHFREQSPSK** is an indicator of whether **REHFREQSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (REHFREQR > 1) then **REHFREQSPSK** = 2 (Asked).

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

**REHFREQSPU = REHFREQSP**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

If **REHFREQSPSK** = 1 then do;

**REHFREQSP** = '.N';

end;

.N = (Not Applicable)

**11. WASITREHSK, WASITREHU, DODREHU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**WASITREHSK** is an indicator of whether **WASITREH**, **DODREH** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (REHFREQA > 1 OR REHFREQB > 1 OR REHFREQC > 1 OR REHFREQD > 1 OR REHFREQE > 1 OR REHFREQF > 1 OR REHFREQG > 1 OR REHFREQH > 1 OR REHFREQI > 1 OR REHFREQJ > 1 OR REHFREQK > 1 OR REHFREQL > 1 OR REHFREQM > 1 OR REHFREQN > 1 OR REHFREQO > 1 OR REHFREQP > 1 OR REHFREQQ > 1 OR REHFREQR > 1) then **WASITREHSK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**WASITREHU** = **WASITREH**, **DODREHU** = **DODREH**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If WASITREHSK = 1 then do;  
    WASITREH = .N;  
    DODREH = .N;  
end;  
.N = (Not Applicable)
```

**12. REHOCCURSPSK, REHOCCURSPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**REHOCCURSPSK** is an indicator of whether **REHOCCURSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (REHOCCURU = 1 OR REHOCCURU = 2) then **REHOCCURSPSK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**REHOCCURSPU** = **REHOCCURSP**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If REHOCCURSPSK = 1 then do;  
    REHOCCURSP = '.N';  
end;  
.N = (Not Applicable)
```

### 13. Creation of skip flag INCIDENTF.

```
INCIDENTF = 1;
IF ( (REHFREQA > 1) OR (REHFREQB > 1) OR (REHFREQC > 1) OR (REHFREQD > 1) OR
    (REHFREQE > 1) OR (REHFREQF > 1) OR (REHFREQG > 1) OR (REHFREQH > 1) OR
    (REHFREQUI > 1) OR (REHFREQJ > 1) OR (REHFREQK > 1) OR (REHFREQL > 1) OR
    (REHFREQM > 1) OR (REHFREQN > 1) OR (REHFREQO > 1) OR (REHFREQP > 1) OR
    (REHFREQQ > 1) OR (REHFREQR > 1) OR (REHOCCURA in (1,2)) OR (REHOCCURB in (1,2))
    OR (REHOCCURC in (1,2)) OR (REHOCCURD in (1,2)) OR (REHOCCURE in (1,2)) OR
    (REHOCCURF in (1,2)) OR (REHOCCURG in (1,2)) OR (REHOCCURH in (1,2)) OR
    (REHOCCURI in (1,2)) OR (REHOCCURJ in (1,2)) OR (REHOCCURK in (1,2)) OR
    (REHOCCURL in (1,2)) OR (REHOCCURM in (1,2)) OR (REHOCCURN in (1,2)) OR
    (REHOCCURO in (1,2)) OR (REHOCCURP in (1,2)) OR (REHOCCURQ in (1,2)) OR
    (REHOCCURR in (1,2)) OR (REHOCCURS in (1,2)) OR (REHOCCURT in (1,2)) OR
    (REHOCCURU in (1,2))) THEN DO;
    INCIDENTF = 2;
END;
```

### 14. REHDISCSK, REHDISCAU, REHDISCBU, REHDISCCU, REHDISCDU. The following explains how to create the flag variable -- the codebook page should contain this information:

**REHDISCSK** is an indicator of whether **REHDISCA**, **REHDISCB**, **REHDISCC**, **REHDISCD** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (REHOCCURA = 1 OR REHOCCURA = 2 OR REHOCCURB = 1 OR REHOCCURB = 2 OR REHOCCURC = 1 OR REHOCCURC = 2 OR REHOCCURD = 1 OR REHOCCURD = 2 OR REHOCCURE = 1 OR REHOCCURE = 2 OR REHOCCURF = 1 OR REHOCCURF = 2 OR REHOCCURG = 1 OR REHOCCURG = 2 OR REHOCCURH = 1 OR REHOCCURH = 2 OR REHOCCURI = 1 OR REHOCCURI = 2 OR REHOCCURJ = 1 OR REHOCCURJ = 2 OR REHOCCURK = 1 OR REHOCCURK = 2 OR REHOCCURL = 1 OR REHOCCURL = 2 OR REHOCCURM = 1 OR REHOCCURM = 2 OR REHOCCURN = 1 OR REHOCCURN = 2 OR REHOCCURO = 1 OR REHOCCURO = 2 OR REHOCCURP = 1 OR REHOCCURP = 2 OR REHOCCURQ = 1 OR REHOCCURQ = 2 OR REHOCCURR = 1 OR REHOCCURR = 2 OR REHOCCURS = 1 OR REHOCCURS = 2 OR REHOCCURT = 1 OR REHOCCURT = 2 OR REHOCCURU = 1 OR REHOCCURU = 2) then **REHDISCSK** = 2 (Asked).

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

31. **REH1WHYNPSK, REH1WHYNPU.** The following explains how to create the flag variable -- the codebook page should contain this information:

**REH1WHYNPSK** is an indicator of whether **REH1WHYNP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (INCIDENTF = 2 AND ((REH1REPA = 1 AND REH1REPB = 1 AND REH1REPC = 1 AND REH1REPD = 1) AND REH1WHYNP = 2)) then **REH1WHYNPSK** = 2 (Asked).

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

**REH1WHYNPU** = **REH1WHYNP**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If REH1WHYNPSK = 1 then do;  
    REH1WHYNP = '.N';  
end;  
.N = (Not Applicable)
```

32. **TRAINS, TRAINAU, TRAINBU, TRINC, TRAINDU, TRAINEU, TRAINFU, TRAINGU, TRAINHU, TRAINIU, TRAINJU, RATETRAIN.** The following explains how to create the flag variable -- the codebook page should contain this information:

**TRAINS** is an indicator of whether **TRINA, TRAINB, TRINC, TRIND, TRAINE, TRAINF, TRAING, TRAINH, TRAINI, TRAINJ, RATETRAIN** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (REHTRAIN = 2) then **TRAINS** = 2 (Asked).

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

**TRAINAU** = **TRINA**, **TRAINBU** = **TRAINB**, **TRINC** = **TRINC**, **TRAINDU** = **TRIND**, **TRAINEU** = **TRAINE**, **TRAINFU** = **TRAINF**, **TRAINGU** = **TRAING**, **TRAINHU** = **TRAINH**, **TRAINIU** = **TRAINI**, **TRAINJU** = **TRAINJ**, **RATETRAIN** = **RATETRAIN**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If TRAINS = 1 then do;  
    TRINA = .N;  
    TRAINB = .N;  
    TRINC = .N;  
    TRIND = .N;  
    TRAINE = .N;  
    TRAINF = .N;  
    TRAING = .N;  
    TRAINH = .N;  
    TRAINI = .N;  
    TRAINJ = .N;  
    RATETRAIN = .N;  
end;  
.N = (Not Applicable)
```

**33. DUTYSTSPSK, DUTYSTSPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**DUTYSTSPSK** is an indicator of whether **DUTYSTSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (DUTYSTA > 1 OR DUTYSTB > 1 OR DUTYSTC > 1) then **DUTYSTSPSK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**DUTYSTSPU** = **DUTYSTSP**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If DUTYSTSPSK = 1 then do;  
    DUTYSTSP = '.N';  
end;  
.N = (Not Applicable)
```

**34. LOCALSPSK, LOCALSPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

**LOCALSPSK** is an indicator of whether **LOCALSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (LOCALA > 1 OR LOCALB > 1 OR LOCALC > 1) then **LOCALSPSK** = 2 (Asked).

**The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:**

**LOCALSPU** = **LOCALSP**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If LOCALSPSK = 1 then do;  
    LOCALSP = '.N';  
end;  
.N = (Not Applicable)
```

35. **MILREHSK, MILREHU, MILOVERU, MILYOUU.** The following explains how to create the flag variable -- the codebook page should contain this information:

**MILREHSK** is an indicator of whether **MILREH, MILOVER, MILYOU** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (SRYEARS >= 5) then **MILREHSK** = 2 (Asked).

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

**MILREHU = MILREH, MILOVERU = MILOVER, MILYOUU = MILYOU**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If MILREHSK = 1 then do;
    MILREH = .N;
    MILOVER = .N;
    MILYOU = .N;
end;
.N = (Not Applicable)
```

36. **COMMINEIGSK, COMMINEIGU.** The following explains how to create the flag variable -- the codebook page should contain this information:

**COMMINEIGSK** is an indicator of whether **COMMINEIG** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (SRELIG = 1) then **COMMINEIGSK** = 2 (Asked).

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

**COMMINEIGU = COMMINEIG**, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited:

```
If COMMINEIGSK = 1 then do;
    COMMINEIG = '.N';
end;
.N = (Not Applicable)
```

### 37. **SRRACEA—SRRACEE, SRRETH1**

**The codebook pages for SRRACEA—SRRACEE should note:**

“These items are consistent with the ‘2003 Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity’ and the ‘2000 Decennial Census.’

SRRACEA--SRRACEE are coded as “Mark all that apply” items, where 1=Not marked and 2=Marked. SRRACEA indicates whether the “White” response category was marked, SRRACEB indicates whether the “Black or African-American” response category was marked, SRRACEC indicates whether “American Indian or Alaskan Native” was marked, SRRACED indicates whether “Asian” was marked, and SRRACEE indicates whether “Native Hawaiian or other Pacific Islander” was marked. If none are marked, then all of SRRACEA--SRRACEE are assigned the item non-response missing code (.).

SRRETH1 conform to the January 2003 standards for reporting Federal data on race and ethnicity. The codebook page for SRRETH1 should note:

“These racial/ethnic categories are consistent with the 2003 standards for maintaining, collecting, and presenting federal data on race and ethnicity.”

SRRETH1 groups responses to SRRACEA-SRRACEE into racial/ethnic categories including multi-racial combinations. The categories are broken down by whether the respondent indicates Hispanic or Latino descent (from variable SRHISPA1). Each description in the “RACIAL CATEGORY” column of the chart is preceded by an H for “Hispanic or Latino” if the respondent has a value of 2 for SRHISPA1, and by a NH for “Non-Hispanic or Non-Latino” if SRHISPA1 has a value of 1. The columns to the right of the descriptions show the Hispanic or Latino and race /ethnicity codes matching each description. The coding for SRRETH1 follows the coding provided in the chart. For example, Hispanic or Latino single-race respondents who mark a single race category in SRRACEA-SRRACEE are assigned the corresponding code (1-5) from the racial/ethnic categories. Hispanics or Latinos selecting more than one race are coded 7. Non-Hispanics or non-Latinos reporting no race code are coded as item non-response. The unassigned categories (coded as 6 and 14), are not populated in this survey, but were used when the additional response option of “Other” for race/ethnicity was included in the question (SRRACEF). The categories for Non-Hispanics or Non-Latinos are similar, except some racial combinations form their own categories (codes 15-18). The remaining combinations reported by Non-Hispanics or Non-Latinos are coded as 19.

CODE	RACIAL CATEGORY (SRRETH1)	SRHISPA1	SRRACEA	SRRACEB	SRRACEC	SRRACED	SRRACEE	SRRACEF
1	H American Indian or Alaska Native	2	1	1	2	1	1	1
2	H Asian	2	1	1	1	2	1	1
3	H Black or African American	2	1	2	1	1	1	1
4	H Native Hawaiian or Other Pacific Islander	2	1	1	1	1	2	1
5	H White	2	2	1	1	1	1	1
6	H Some other race	2	1	1	1	1	1	2
7	Hispanic/Latino reporting more than one race	2	(Any combination of more than one 2 in SRRACEA-F)					
8	H Unknown race	2	.	.	.	.	.	.
9	NH American Indian or Alaska Native	1	1	1	2	1	1	1
10	NH Asian	1	1	1	1	2	1	1
11	NH Black or African American	1	1	2	1	1	1	1
12	NH Native Hawaiian or Other Pacific Islander	1	1	1	1	1	2	1
13	NH White	1	2	1	1	1	1	1
14	NH Some other race	1	1	1	1	1	1	2
15	NH American Indian or Alaska Native & White	1	2	1	2	1	1	1
16	NH Asian & White	1	2	1	1	2	1	1
17	NH Black or African American & White	1	2	2	1	1	1	1
18	NH American Indian or Alaska Native & Black or African American	1	1	2	2	1	1	1
19	NH Balance of individuals reporting more than one race	1	(Any other combination of more than one 2 in SRRACEA-F)
